

# WOMAN'S SUFFRAGE FACES IMPORTANT TEST IN THREE EASTERN STATES AT TUESDAY'S ELECTION

Night states, New York, Massachusetts, Maryland, New Jersey, Pennsylvania, Kentucky, Ohio and Mississippi, will hold elections on Tuesday, November 2nd.

In four of these states, Massachusetts, Maryland, Kentucky and

Mississippi, governors are to be elected; in six states, New York, important constitutional issues are to be decided.

With a few local exceptions, in state legislatures, in whole or in part, are to be elected, and in five states, New York, Massachusetts,

fundamental matters as woman suffrage, municipal home rule, prohibition, state income taxes, referendum plans, and some lesser reforms. The woman suffrage question will come up for decision in New York, Pennsylvania and Massachusetts, which states will furnish, in point of

population, the greatest test the suffrage issue has ever had in the United States. New Jersey, the first state in the East to vote on

equal suffrage, defeated the proposal expected in the three bigger neighboring states, the suffrage leaders have not been discouraged by the

decision on October 19.

While it has been held by some political observers that the result of the test in New Jersey would be notably indicative of what might be

seen in the other states, which will vote on suffrage November 2nd, include over 20,000,000 people, a fifth of the population of the entire United States—and these 20,000,000 are practically double the population of the states in which equal suffrage has yet been fully achieved.

# BRITISH WARSHIPS IN COLLISION

## 100 LIVES LOST WHEN A MINE SWEEPER GOES TO BOTTOM

London, Oct. 30.—One hundred men are reported missing after a collision of the British auxiliary sweeper Hythe with another British war ship off the Gallipoli peninsula in which the Hythe was sunk.

The announcement was made today in an official statement by the British admiralty as follows:

"During the night of October 28-29, H. M. S. Hythe, an auxiliary sweeper, Lieutenant Commander Arthur Bird, was sunk after

being in collision with another of his majesty's ships off the Gallipoli peninsula.

"At the time of the collision she had on board about 250 men in addition to her crew. One hundred are reported missing."

## New Cabinet Greets French President

Paris, Oct. 30.—Premier Briand presented to President Poincaré at the Palace of the Elysée this morning the members of the new cabinet. Immediately thereafter the first formal meeting of the cabinet was held for an exchange of views on the diplomatic and military situation.

A meeting will be held Monday to decide upon the terms of the ministerial declaration to parlia-

ment which will be submitted to President Poincaré at a meeting with the cabinet Tuesday.

It was agreed that Charles De Freycinet, vice president of the cabinet, should have the place of honor at the right hand of President Poincaré at the cabinet table. Emile Combes will sit at the president's left hand. The Premier will have the place opposite the president.

## WANT AMERICAN SUPPORT TO PROTEST AGAINST MONARCHY

Tokio, Oct. 30.—The Japanese government has requested the American government to give its support in the representations which are being made at Peking for the purpose of postponing re-establishment of a monarchy in China until the European war is ended. Japan's policy was decided upon after consultation with Great Britain. The conver-

sations began while Baron Ishii was in London several weeks ago on his way from Paris, where he had served as Japanese ambassador to Kyoto.

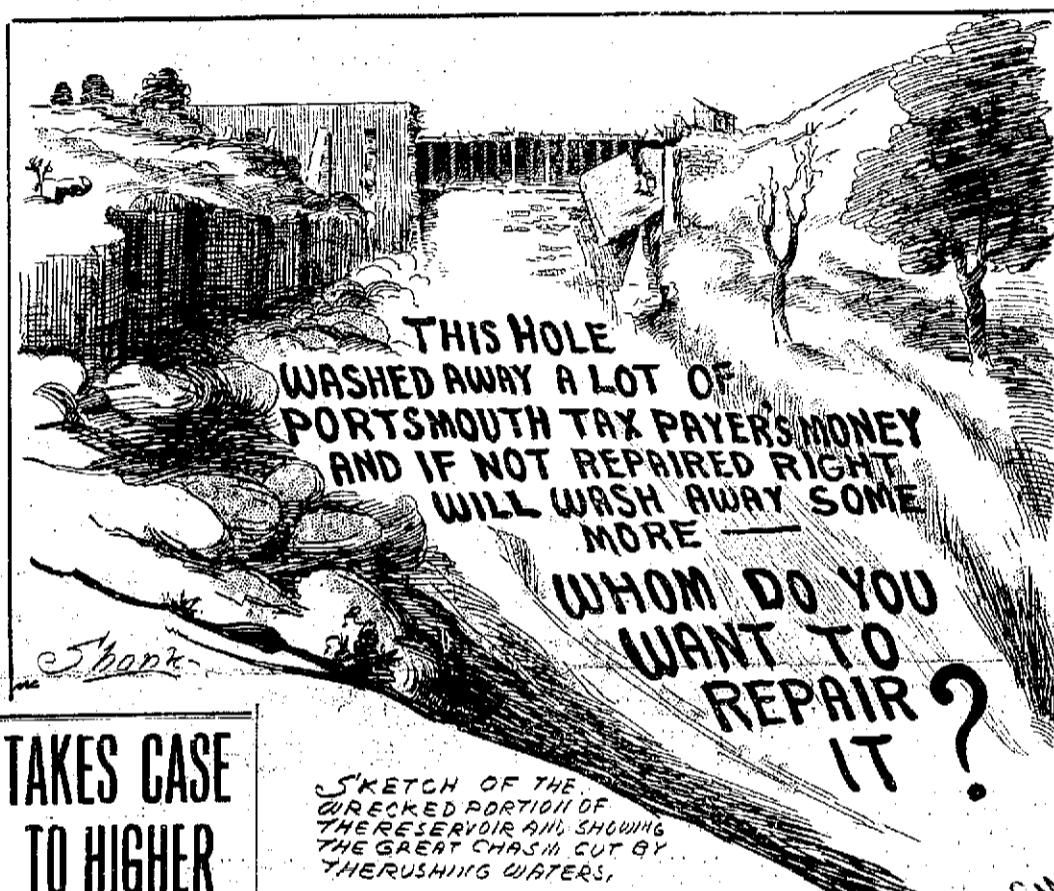

There is much interest here in the attitude of Germany in regard to the form of China's government. Contradictory reports have been received here concerning the position taken by German diplomats at Peking.

## BRYAN FLAYS HARMON IN CAMPAIGN ADDRESS; IN CLEVELAND TONIGHT

Tiffin, O., Oct. 30.—Wm. J. Bryan, former secretary of state, in a speech here today attacked former Governor Judson Harmon, declaring that in Harmon's endorsement last night of the proposed stability amendment now before the Ohio voters, Harmon placed himself on a very low plane.

"We only trust a governor for two years and a president for four years," said Mr. Bryan. "Shall we trust a saloon for six years? Harmon is putting himself on a very low plane. He carries his devotion to the liquor interests farther than any one who has yet spoken."

### THE QUESTION OF THE HOUR.

### TAKES CASE TO HIGHER COURT

Washington, D. C., Oct. 30.—The supreme court was asked today to review the action of Governor Willis in dismissing Byron M. Clendenning, Democratic member of the state liquor licensing board after sustaining charges of official misconduct for encouraging members of county license boards to assist in the referendum campaign on the McDeromt license law.

Mr. Clendenning filed a suit in the high court in the form of a mandamus to compel M. M. Rose and Frank Hay, Republican members of the state board to recognize him as a member and pay his salary.

### Morgan Better

New York, Oct. 30.—J. P. Morgan spent a comfortable night following the operation upon him for appendicitis, and his condition is in every way satisfactory, according to a bulletin issued by his physicians.

\*\*\*\*\* WATCH OUT FOR THE DAILY TIMES PINK ELECTION EXTRA \*\*\*\*\*  
The Times will receive election returns Tuesday night from the state and nation over its Associated Press leased wire. City and county returns will also be received as rapidly as the votes are counted out.

Returns will be flashed upon a screen by a stereopticon in front of the Times office as was done last Fall and the public is invited to come down and get the news as guests of the Times.

An Election Extra will be issued during the evening, giving the results of state and city, as well as general news, that will come over the leased wire.

# VOTE WAY YOU BELIEVE, SAYS P. E. SELBY IN AN ADDRESS TO WORKMEN

The following address was made to the Selby Shoe Company employees today by P. E. Selby, general superintendent, he calling them together for that purpose:

"Fellows—  
I suppose you have been told many times by outsiders how The Selby Shoe Company and Pearl Selby in particular, talk, what they think and how they feel. I thought you'd like to get it direct just once, so I called you together.

"Tuesday is election day and every voter ought to appreciate his citizenship and vote, rain or shine.

"The most important vote you will cast will be the one on the Prohibition Amendment, because it directly concerns every man, woman and child in the State or Ohio.

"Boys, there's not a man or a company in this state, that can force you to vote any way but your own way and I wanted to tell you I'm glad that's so, and no man is a true American who would wish to have it any other way."

"Listen! If it took just ten votes to make Ohio dry and I could force ten employees of The Selby Shoe Company to vote dry, I'd never try to force one single man to vote against his own free, independent judgment."

"We don't want a single employee to feel that The Selby Shoe Company desires to control his vote. We believe you understand the "Wet" side. We want you to be sure to understand the other side also, that's all."

"Tuesday you are not voting for The Selby Shoe Company, but

"Mayor Says He Would Become A Regular Eggnog

## Could A Drunk Man Carry Eggs Safely In His Pockets?

A drunken man with seven dozen of eggs snugly tucked away in his pockets would transform himself into an "eggnog" before he got very far was the opinion advanced by Mayor Frick in police court Saturday.

With the above the mayor held that the defense of Henry Miller, colored, was not well founded. Miller put up the plea that he was drunk and didn't know what he was doing. "You certainly could not have been drunk, Henry, for a drunken man with so many eggs in his pockets would have completely besmeared himself," said the mayor.

The evidence developed that Miller had come into James M.

Horton's grocery at Twelfth and Railroad streets and pretended to be awaiting a woman, who he said, was to make some purchases. He seated himself on a cage of eggs. Shortly after he left it was discovered that the case out of which only one dozen had been sold was stripped of six or seven dozen. Mr. Horton notified the police and himself promptly mounted a bicycle and started in a hunt of the fellow. It was soon learned that a negro had sold two dozen and a half of eggs at Hatfield's grocery, corner Eleventh and Findlay streets. Officer Callahan Smith found Miller hiding in an alley. He took him to Horton's grocery where he was identified as the same fellow who had been in the store. Taken to Albert Engel & Son's meat market on Twelfth street he was identified as the same who represented himself as buying potato sacks and who was seen walking out with a couple of eggs in his hand. Mrs. J. M. McLochlin identified him as the fellow who had been seen resting his arm on an egg bucket in her store at 1135 Eleventh street. She later found some eggs missing. The court fined Miller \$10 and costs and ordered that he restore the value of eggs lost by each of his victims.

## WET FORCES WILL MAKE HOT FINISH TO CAMPAIGN

The last three days of the campaign will be busy ones for the wet forces, beginning with the big barbecue at Ottway today. Early this morning a local delegation composed of Paul Esselborn, Nonh Schaefer and William Abrahams, speakers, and a band of twelve pieces left Portsmouth for Gervin's Grove, where the ox roast is being held.

The speaking program opened about 10 o'clock this morning, the introductory speaker being William Abrahams, of this city, who after a short speech, introduced Nonh Schaefer, the wet speaker of Cincinnati, who made an hour's talk against state-wide prohibition.

At noon the barbecue was served to the large throng which had assembled in the grove to spend the day.

At 2:30 o'clock Judge C. M. Showalter, of West Virginia, who arrived in this city at noon, de-

livered the principal address of the day, devoting practically his entire speech to conditions under the dry regime.

Judge Showalter was accounted for this city by C. W. Brown, who spoke at two o'clock this afternoon on the government square, and who will make another address at the same place this evening at 7 o'clock.

Judge Showalter is booked to deliver an address at the corner of Eleventh and Lawson streets this evening at 7 o'clock, while Messrs. Abrahams and Schaefer will address a meeting at Oertel's Corner at the same time.

On Sunday afternoon at 2:30 o'clock, Hon. C. M. Bryan, the city attorney of Memphis, Tenn., will deliver an address against statewide prohibition at Wheelersburg.

In the evening at 7:30, he will speak at Kendall's hall in this city.

Noah Schaefer will speak Sunday evening at 7 o'clock at Lucasville.

The wet campaign will close Monday evening with an address at Kendall's hall by Hon. Vernon J. Rose, of Kansas City.

Lived at Cephart Station for over 25 years.

The deceased was a member of St. John's Catholic church at Lilly and was one of the most faithful workers of the church in that community.

Besides her husband she leaves six children, Walter and Frank, Gilbert Grocery Company employees, Jacobs, book-keeper at the Selby shoe factory, Willard and Earl, steel workers of New Boston, and Zelma at home. Mrs. Henry Kader, of Ninth street, and the Sommer brothers, of this city, were cousins of the deceased.

The funeral will be held Monday morning, at nine o'clock, from the Wheelersburg Catholic church, with Rev. Father Carey officiating.

Death Friday entered the home of Mrs. Anna Schropp, wife of the late Albert Schropp, and claimed her only child, a sweet little son, Albert Theodore, who was a year old October 7, 1915. Death was due to complications.

The body arrived here Saturday from Huntington, where the child died and funeral services were conducted Saturday afternoon from the St. Mary's church. Interment followed in Greenlawna.

It will be recalled that Albert Schropp passed away September 8, 1914. The child was a grandson of Mrs. Pauline Schropp, of 34 Eighth street, and she with Mrs. Anna Schropp, the mother, are grief stricken over the loss of the child, who was the sunshine and joy of their lives.

**Harry Ross**  
Harry Ross, aged 25 years, a well-known young salaried boy at the Kelly's restaurant, No. 946 Fourth street, died yesterday at 2 o'clock.

The young man had been suffering with consumption for four or five years past but had been ill for three weeks. He was a son of George Ross, who was born and reared in Portage and now resides in his mother's home with his wife, Esther, Mrs. Leon Ross, and his only surviving brother, Joe Ross. The two brothers were inseparable companions of quiet and reserved disposition and greatly attached to their mother and home.

The funeral will take place from the home probably Monday after noon.

**Mrs. Jacob Bauer**

Mrs. Margaret Bauer, wife of Jacob Bauer, of Cephart Station, passed to the great beyond Saturday morning at 11:30 o'clock, after an extended illness of liver trouble.

The deceased, well known in Scioto County, was 50 years of age when the Grim Reaper claimed her. She

# BOY SCOUT CONFERENCE ON NEXT FRIDAY NIGHT

On next Friday night the Southern Ohio Boy Scout Conference will convene in annual session at the First Presbyterian Bible School Auditorium, Portsmouth. The conference is already an assured success as many delegates will be in attendance.

There will follow a number of musical selections by the Columbia Male Quartette. The address of the evening will be made by the president of the Southern Ohio Boy Scout Association, Mr. Hobart Sampson, whose subject will be "Leadership." Piano solos will be rendered by Russell Williams, of Troop 2, and Kenneth Swearingen, of Troop 3.

Another interesting feature of the evening's program will be a moving picture entertainment with the following reels being shown: "Romantic San Diego," educational; "Boy Scouts of France," special; "Pete the Pedal Polisher," humorous; "Valley of the Chamouix," educational; "Ashes of Dreams," drama; "Colonel Illegible Liar Farmer," comic. All Boy Scouts of the city will be admitted free as well as their parents and friends.

Seats will be reserved for Boy

Scout troops. Saturday morning's session will be devoted to business of the association and discussions of scout work. Two interesting debates will feature this session. The devotions of the morning will be in charge of Rev. S. D. Conger. The conference comes to a close on Saturday afternoon with a big gym meet, the chief feature being two basketball games, "Covenanters vs. All Stars," and East End vs. Tigers. The conference entertainment committee consists of Corwin

Knowles, chairman; William Hopkins, Howard Lowry and Marion Garrison, who have worked hard to make the conference a great success.

# REPUBLICAN GROUND SWELL ON FOR KAPS

The Republican City Committee now feels justified in predicting a great Republican victory at the polls next Tuesday. It feels justified in going further than that and in claiming that a ground swell is on for Kaps for Mayor and the entire city ticket. For the past ten days there has been a steady trend toward Kaps and this trend has become so visible that it is now only a question of the size of the majority and the extent of the victory. This is conditioned, of course, on all Republicans continuing the grand, good work they have been doing in the past two weeks and we know the good work will go on. No Republican party is united, aggressive, enthusiastic and confident. There is an acknowledged tremendous Democratic revolt against the Frick administration. The Democratic party is split, indifferent and depressed. Its only asset is a great campaign fund, contributed by a wealthy mayor and members of reluctant office holders. This pays for the big advertisements in the press, and these advertisements are the only place where Democratic enthusiasm can be found in this campaign and that is paid for at so much per inch.

Let everybody join in the growing Republican procession and make it the greatest victory in the history of our city.

For everywhere you go it is KAPS-KAPS-KAPS.

## J. S. DAVIS for Mayor

To the voters and you who cannot vote in the village of New Boston, I make my last appeal to you through the press. You that believe in having your village governed in the next two years as it has been in the past, and if it has met with your approval I ask you to go to the polls next Tuesday and cast your vote for me, and I assure you if I am re-elected, I will continue to look after your interest as I have in the past and if what I have done does not meet with your approval and according to your judgment I have not carried on your affairs as I should have done. I ask you with all due respect to go to the polls next Tuesday and cast your vote against me and for the man that you think will. For it is you who should be made to feel satisfied and not me. I have no promise to make to you only that I will do as well in the future as I have in the past and better, if possible. I won't tell you that I will pave your alleys or build you sidewalks as some have been telling you, but whatever I can do that is to your benefit I am willing to do for I consider I am your servant and am willing to serve you, and not to be served. I do not have to tell you what has been done, you can see and if you want the good work to continue it is up to you. I have not one word to say against my opponents in this campaign, for that is a matter for you to decide and not me, and I am perfectly willing to abide by your decision. Let it be for or against me. And when the votes are counted next Tuesday night if the majority is for some one other than myself I will gladly meet and congratulate him for I feel it is your choice and you alone to be satisfied. And assure I will never do anything only to aid and assist him in carrying on your work.

Now friends and I hope I have no enemies in this matter, I leave it to you to make your choice.

I remain yours,

### The Churning of Columbus Oleomargarine

There is little difference between churning creamery butter and oleomargarine. In the latter process, however, large imported steel churning bowls are used instead of the wooden type and the motion is rotary instead of horizontal.

The cream and milk are first introduced and churned until the butter globules appear, then the Oleo Oil and Neutral are quickly added and agitated until all the ingredients are thoroughly mixed. The oleomargarine is then drawn off, in liquid form, into cooling tanks filled with a mixture of cracked ice and distilled water, which causes it to quickly harden. From here it is taken to the Salting and Working Room.

The latest improved churning bowls, the absolutely pure ice and water and the close inspection by Federal authorities during all processes is your guarantee that

# Where There IS Elbow Room

It is a regrettable fact that as the rule, almost without exception, lots in the city of Portsmouth are both too narrow and too short, running from 27 to 35 wide and averaging little more than 100 in length. As the city is closely built up this means overcrowding and an insufficiency of light and air.

## OUT IN FAIR

our splendid addition, which we laid off early this Spring and where we have made many sales, we have overcome this condition by laying out

## Lots 50 by 200 Feet

but some are even larger, being of the same width and running up to a length as great as 224 feet.

The addition is most beautifully and desirably located, being on the table lands between the hills, immediately adjoining Wheelersburg to the east and the banks of the Ohio river, with good drainage, and being above high water.

The lots are so large that there is plenty of room on them for a wide lawn and plant all the vegetables the ordinary home-owner cares to raise. More than that they provide the plentitude of sunshine and air, so necessary to health, vigor and last, but not least, on the lawns children can romp and frolic free from the perils of playing in the street. Yes, life out there can be made to mean fresh and more wholesome food, robustness for the children and better health for the family, oftentimes saving from these things enough in doctors' bills alone to pay the cost of a lot.

Through the addition runs the new traction line, now building and to be in operation before this year is ended. This makes it almost as convenient and consumes no more of your time in going to your place of employment, than if you lived well in the heart of the city, four or five blocks from a street car line.

Close by and within walking distance are excellent schools and Catholic and Protestant churches.

The lots are priced at a reasonable figure a low one comparatively speaking, and the terms of sale are so easy that the modest wage earner can pay for them without hardship.

We will build houses to suit purchasers and arrange for payment for them on a monthly installment plan.

We have an auto in constant service and will be glad to take prospective purchasers over the addition.

**DO THEY MEAN IT STILL?**

Before the primary, the Osborn managers said: Mr. Kaps is backed by Hard, Eckhart and others, who feel that they have a grievance against Governor Willis and Mr. Bannon. The primary purpose of this faction is not the nomination of Kaps, but the humiliation of Willis and Bannon.

Thus we have Ambition on one side and Revenge upon the other and the Republican party is asked to pay the bill.

The Republican party of Portsmouth is asked to be the Belgium in this struggle between the "Emperor" and the "Allies."

Nate Gilliland said in a speech before the primary after stating that Kaps was Hard's candidate:

Mr. Hard, have you ever heard of him before? I believe that he held the postoffice job for several years. Then he was slated for a state job. He did not get the support of Mr. Bannon. Don't you see where this will lead. The City will come under their control, then the county, then the district. Don't you see that they will control our congressmen?

Mr. McCormick another defeated Candidate said in referring to one of the leading Kaps supporters:

"All of you men here are acquainted with what I did before I became a candidate. I circulated petitions for Fred N. Tynes and he said then that he was for me and of course I had to swallow it. I don't think he was for me then and I don't think he ever has been for me."

Mr. Gims, the fourth defeated Candidate at the primary said:

But the day after the primary, one of the McCormick boosters said in an interview: "We have evidence of a deal by which at the eleventh hour he gave his support to Kaps. Gims would have received more than 86 votes had he been in Europe."

Harry Bannon, the McCormick campaign manager, said in a public speech: "If you nominate Kaps you will have the same old bunch who started the Water Works. Frick knows more about those Water Works than any one else in town, and we want to stay as far away from that issue as we can."

"McCormick had nothing to do with it. The administration in power fixed the first estimate of the cost at \$300,000, but they came back for more, and more, until over a half million dollars was spent and now we haven't got pumps that are working satisfactorily."

"They promised us that the plant would be located above the 1884 flood stage, but right now the floor of the pumping station is thirteen inches below that line. This was due to bad measurements. They went down to the foot of Market Street and measured from the sea-level. They didn't take into consideration that the water works were located four miles east of that point, and that the Ohio river stage of the river falls at the rate of four inches a mile."

"Other things could be pointed out to show their gross mismanagement."

A committee of six members of the labor organizations, four of whom were officers, and all Republicans gave out this signed circular during the primary campaign:

"The vicious and unwarranted attack of Charles E. Hard, chairman of the Kaps Committee, upon representative workingmen in his speech at Kendall's Hall, should be rebuked at the polls. He not only disapproved the appointment of George A. Ditty, who was endorsed by the Central Labor Council, but scornfully said he hoped he never would return to Portsmouth. He attacked another man who has always affiliated with us, and who by his own efforts rose to a place of trust."

"Hard is backing Kaps, who was the President of the Contractor's Association and affiliated with the Plumbers' Association which is trying to break up all the Unions. Kaps is owned and controlled by Hard."

"We therefore call upon voters who are in sympathy with labor to vote against Bert Kaps, who wears the collar of Charles Hard."

The above are criticisms of the Republican mayoralty candidate and his backers given out by members of his own party.

**"APPLE EAT" PROVES TO BE AN ENJOYABLE AFFAIR**

"An Apple Eat," an unique scheme originated by Rev. George P. Horst, pastor of Second Presbyterian church, resulted in over 500 young men and boys attending the get together, get acquainted meeting held Friday evening in the basement of the Second Presbyterian church, a very enter-taining program being rendered.

The affair was for all men and boys of the church and all outsiders who do not belong to any church. The members of the Bible classes of the church became better acquainted at the "Apple Eat" and the members who made friends with the strangers will endeavor to enlist them in one of the classes.

The opening number on the program was the "Snake Dance" which was a mystery until it was over. The "Snake Dance" was exactly like the college Snake Dance in which all the students take part after a glorious victory on the athletic field.

The second number was a comedy sketch by Mr. and Mrs. Eugene Lane. "Nifty Nonsense" was the title of the act and they followed with a mind reading stunt which created volumes of laughter as Mr. Lane named every article which he asked his wife, blindfolded, to name.

Rev. Horst sang a German song. The pastor also made a short talk in which he outlined the work which he expected to accomplish with the help of the men and young men. The subject of his talk was "Get Together and Pull."

W. Bauer gave a short address on "Old Mother Hubbard." The talk was very amusing, although it contained an appeal for the

**DR. GEORGE B. NYE IS HIT WITH A HATCHET HURLED BY AN IRATE WAVERLY MAN**

A bitter political and factional fight, which has been raging in Waverly over the election of city officials, culminated Thursday evening, in an assault upon Dr. George B. Nye by Florence Rader, the latter hurling a hatchet at Nye, striking him in the back, inflicting a slight wound. That Nye was not seriously injured was not due to lack of intention on the part of Rader.

Both Nye and Rader are Democrats, but they have been personal enemies for some time. Rader is now backing an independent ticket as against the regular Democratic ticket in Waverly, and in the course of the fight bitter personalities have been exchanged. In this week's issue of the Watchman, a newspaper owned principally by Dr. Nye, a bitter attack was made upon Rader and he was called some harsh names. Previously when attacked in this paper he had gone to the opeo and threatened to "clean it out" if he was again rested in the paper.

Thursday following the appearance of the Watchman, Rader became wild with rage, but nothing resulted until about 6:30 in the evening. At that time Dr. Nye was standing talking to County Auditor Beryl Eyer, Jacob Stevens and known in Portsmouth.

As soon as he threw the hatchet, eye-witnesses say that Rader turned and ran away as fast as his legs could carry him. He was about town Friday, however. While it was said that a warrant would be issued for Rader upon a charge of assault with intent to kill, he had not been arrested up to Saturday morning.

One result of the fight was that Rader lost his job as bartender at the Emmitt House bar.

All parties to the fight are well

James H. Roberts in front of the Home bakery, his back being to the street. Rader came out of the Emmitt House bar, where he was employed, and, seeing Nye, ran back into the saloon. In a moment he was out again, carrying a hatchet in his hand. He ran part way across the street, stopped and hurled the hatchet at Nye's back with all his might.

The first intimation Nye had of the attack was when the hatchet hit him in the back. The blade hit him fairly, cutting through his clothes and penetrating the skin, but not inflicting a serious wound. Nye staggered from the effects of the blow, and it was at first feared he had been seriously injured. He soon reassured his friends and then went home to change his clothes.

After a brief hearing Saturday morning, the county liquor licensing board reconsidered its former decision in the matter of the application of Edward E. Treat, Chillicothe street saloonist, and granted him a renewal of his license for next year. His application was rejected by the board last Saturday.

Evidence was introduced by

Treat's attorneys, Milner, Miller &

Searl, tending to disprove information that the board had received relative to Treat's place, and it was upon this evidence that the members reversed their previous action.

Miss Cora Swabby, who is employed in the Security Bank, is improving at her home on Grandview avenue, from a severe illness.

**"Comment on the Stability Amendment to The Initiative and Referendum"**

The voters of Ohio who appreciate the Initiative and Referendum should look for and swat the "Joker" in the proposed stability amendment. It is found in the clause which says "no measure or any part of it, if twice rejected shall be again considered until after six years from the last rejection."

The people should not be limited in their efforts to pass good or necessary laws.

This amendment if carried limits the people to two efforts in eight years on any important measure which may have been rejected because the enemies of good government purposely couched it up with or hitched on to it something the people did not want, and its enemies knew would defeat it.

The Socialists of Ohio go on record in opposition to the stability amendment in order to preserve the Initiative and Referendum in its present practical form. There are other issues aside from the Wet and Dry that will be affected by this amendment in the future if it becomes a part of the constitutional law of the state of Ohio.

**Gov. Hanly Tonight**

Ex-Governor Hanly of Indiana and Oliver Stewart assisted by famous singers and musicians will hold a dry meeting in Trinity church tonight at 7:30 o'clock. They are members of the Flying Squadron of America and are sure to be greeted by a magnificent audience.

Over five bushel of apples

were devoured in short order. The apples were furnished by the Men's Bible classes.

Mendel Jones rendered a Welch song. The first Apple Eating Contest was enjoyed by all present. Apples were suspended from the ceiling with strings and the contestants had their hands tied behind them. It was impossible for the participants to bite the apples. All joined in singing a number of songs. C. E. Dowling made a short address on "Efficiency of the Pulp."

The concluding number on the program was the "Apple Eating." Over five bushel of apples

were devoured in short order.

It was a success.

The Detroit Electric is so easy to operate that every member of the family can drive it with absolute confidence and safety. You get the maximum use of a car in the Detroit Electric because your wife and daughter never have to depend upon the hired chauffeur nor wait until you can release yourself from business to drive them about. Remember—the resale value of every automobile is determined by its miles of use, therefore it is relatively the same whether the car has been driven in front of your office or has been driven by the family during your business hours. Consequently the car which can be used the most each day returns the greatest value on the investment.

## A Diamond Christmas

Can you imagine a Christmas when every man, woman and child would not only be amply supplied with the necessities of life but could enjoy some luxuries as well? We wish it were so. It seems it must remain for the few to enjoy the "Diamond Christmas"—and how thankful they should be, for how the heart leaps with pleasure when the first light of Christmas morning falls upon a bright sparkling Diamond Ring, Brooch, Pendant or Scarf Pin.

The Diamond is the emblem of Christmas remembrance, whether it costs \$15.00 or \$100.00—just so it is perfect and of the J. F. Carr quality. It is a gift that is always kept and never wears out or depreciates.

It is generally known that J. F. Carr's is Diamond Headquarters. For Quality Diamonds we undersell all competitors. Come in early and look at our goods. You are welcome whether you buy or not. Anything selected now will be reserved for you.

920 GALLIA STREET

I know of today. He called a strike in Cincinnati that was full of riots. He was a fine specimen of humanity to come to your city and talk on the dry or any other question after he figured in your shoe strike here. That shows the nerve of the man. I understand that Mr. Keeney's appearance here will cost Green City to roll up a larger majority against prohibition next Tuesday than it did last year."

"There isn't a homely reason why any laboring man should line up with the capitalists and vote the dry ticket. When he does this, he is simply giving his employer a little more rope. And the drys are rapidly realizing the truthfulness of this statement," the speaker said.

## POLITICS

Mayoralty candidates were relegated to the background at the final rally of the Republican forces at their headquarters on Gallia street Friday evening, while Republican speakers, old and young, called upon the Republican voters of the city to rally round the banner of the G. O. P.

Noticeable to an attendant at previous meetings of the campaign was the absence of abuse and ridicule of Mayor Frick on the part of the speakers, while an occasional boast for Kaps and the entire Republican ticket was the only time his name was mentioned.

The Republican leaders apparently have come to the conclusion that their only hope lies in trying to tell us of the wonderful prosperity there is in dry Kansas. Why we have one city in Ohio that has more building and loan associations than the entire state of Kansas. There is no use comparing these states. Olie is so far ahead of Kans that it is a crime to mention them in the same breath.

The greatest insult your city has ever had was when Edward J. Keeney mounted a platform and had the audacity to make a dry speech. Why he is the greatest labor agita-

to make the voters of Portsmouth believe that the welfare of the Nation hinges upon the selection of Portsmouth's mayor; and protective tariff, hard times and other favored phrases of campaigns of bygone days were employed repeatedly by the speakers.

Counter attractions on the public square just below the hall kept down the attendance at what was designed to be the largest meeting of the campaign. Less than a hundred voters were present.

Judge Holcomb Makes Fine Talk

Judge A. T. Holcomb, an old war horse of the Republican party in Portsmouth, was the first man on the firing line, and he delivered an eloquent and forcible, old-fashioned Republican speech, one calculated to arouse party loyalty. Mr. Holcomb argued that prosperity and happiness could only be secured in this country through the election of a Republican president and congress, and that this campaign is but a skirmish to the real battle of next fall. He insisted upon every Republican supporting the city ticket this fall.

D. W. Gustin Upholds Law

D. W. Gustin devoted a few moments to an argument in support of the Sprague law, which urged every Republican in the city to support. Mr. Gustin said that it was a strictly partisan measure, that a Democrat would be "fudged" to vote for it, but it was the duty of every Republican to register his vote for it.

The Democrats redistricted the state so that they would secure 11 and the Republicans 5 congressmen. That was unfair to us. The new law will give the Republicans 17 and the Democrats 5 which is fairer deal from the Republican standpoint."

Mr. Hard Confident

A glowing picture of party success was painted by Charles E. Hard, the next speaker, who read an advertisement, signed by the Republican committee, predicting Kaps' election by a majority.

As on the night before Mr. Hard recited Mayor Frick's reported wealth, contrasting it with the alleged poverty of his opponent, as one of the members, Miss Norma Augusta, the girl of the M. A. S. delightedly interjected, "I'm sorry, Mr. Hard, that you are indulging in a Hallowe'en party last evening at the home of Grandview avenue, have returned from a three weeks' visit to relatives in Oklahoma."

Mr. Peter Sommer, a well known Long Run farmer, and son of Leon W. Sommer, the next speaker, who read an advertisement, signed by the Democratic committee, predicting Kaps' election by a majority.

Mr. Hard also claimed that the debts were indulged in. During

the past week, which were to have been made public at this meeting. Some of the pledge lists were turned in, however, and the member will probably be made known today or tomorrow.

"Klink" Made Red Hot Talk

E. R. S. Clinkenbeard, who spoke next, closed up his box of humor for one meeting and delivered a fiery Republican speech, one of the old-fashioned kind, calling upon Republicans to cling fast and true to the principles of their party and smash the common enemy, the Democrats, at the election next Tuesday.

Mr. Sheppard Presents Arguments

A lengthy address, covering every feature of a political campaign from Alpha to Omega was delivered by George W. Sheppard, who disengaged from a discussion of municipal affairs to paint a picture of idle factories, desolated homes, starving women and children, and other evils which he claimed fell upon the people of the United States under the Democratic administration.

Ran Into An Argument

Mr. Sheppard ran into trouble when he started to offer argument in favor of the extension of terms of county officials for four years. John Higgins being issue with him. Just as Mr. Sheppard was telling about the poor county official who has to make so many campaigns to secure his office, Mr. Higgins interrupted him with the statement, "And the poor officials will want two terms of four years each instead of two terms of two years." "Well, I'd rather see that than to see them run every two years," said Mr. Sheppard. "That's all right for the officials but how about the boys?" rejoined John. Mr. Sheppard immediately sought a new issue, and the incident was closed.

W. J. Meyer Gives Talk

The meeting closed with a short speech by William J. Meyer, who was called upon for the first time in the campaign. Mr. Meyer made an earnest plea for a unified and harmonious party, which he said would insure victory next Tuesday. Mr. Meyer replied to the Democratic advertisement in which it was stated that 95 per cent of the people of Portsmouth were not interested in police court with the statement that every one was interested in the doings of that court. He also refuted the inference that there were any petit larceny attorneys in Portsmouth.

Counter attractions on the public square just below the hall kept down the attendance at what was designed to be the largest meeting of the campaign. Less than a hundred voters were present.

Judge Holcomb Makes Fine Talk

Judge A. T. Holcomb, an old war horse of the Republican party in Portsmouth, was the first man on the firing line, and he delivered an eloquent and forcible, old-fashioned Republican speech, one calculated to arouse party loyalty. ## Divorce Decrees

## Granted Saturday

Mrs. Robert Calvert and three sons of Hanna, La., who are spending several weeks at the home of her parents, Mr. and Mrs. F. Richardson near Wheelersburg were out hunting yesterday and on driving home the buck strap broke letting the buggy down on the horse which ran away colliding with another buggy and overturned, slightly hurting Mrs. Calvert who is now all right. The boy not being hurt in the least but the buggy was mashed up considerably.

These divorces were granted in the hearing of the divorce of William H. Harlow, an X. & W. conductor, against Elizabeth Harlow, which ended in a decree being granted the husband. The evidence showed that the wife was guilty of adultery, neglect and adultery. She was also restored to her maiden name of Alice M. Dillon. The couple were married in November, 1912, at Columbus, and have no children. The husband is employed at the local Home Telephone Company. Exchange. Blair and Kimble were the plaintiff's attorneys.

The court also granted a divorce to Clara Aulin from her husband, John Aulin, the case having been heard several days ago. The wife was ordered to pay her husband \$250 as his equity in the property.

## BIG FIRES

Biddeford, Maine, Oct. 30.—A loss estimated at approximately \$350,000 was caused by fire which swept through half of the large storehouse of the Pepperell Manufacturing company early today, destroying several thousand bales of raw cotton and much of the finished product. One fireman was badly hurt by falling from a ladder.

These fires were the finding of the police, the names being written backward on the place cards. Those participating in the evening's pleasure were as follows: Messrs. Edmund Kriek, Edgar Sawyer, Theodore Eek, Louis and Leo Kriek, Charles Sawyer and Misses Mamie Foster, Hortense Bratwyl, Dorothy Eek and Norine Augustin.

Another fire was the finding of the police, the names being written backward on the place cards. Those participating in the evening's pleasure were as follows: Messrs. Edmund Kriek, Edgar Sawyer, Theodore Eek, Louis and Leo Kriek, Charles Sawyer and Misses Mamie Foster, Hortense Bratwyl, Dorothy Eek and Norine Augustin.

## SUIT TO RECOVER

Suit to recover judgment for \$113 with interest on an alleged note for that amount was filed against John H. Carey and Elizabeth Carey, of Youngs, by Attorneys Milner, Miller and Seal. Saturday, representing Truman E. Thompson, who claims to be the holder of the note, assigned to him by E. D. Leedom, the original holder. He also seeks to foreclose a mortgage on two tracts of land belonging to the defendants which he claims was given as security for payment.

Thompson and Company are named as co-defendants in that it claims to have an interest in the property of the defendant. This company, through its attorneys, Milner, Miller and Seal, filed an answer and cross-petition at the same time the above petition was filed, claiming to have secured a judgment against the two defendants for \$48.60, and asking that its claim be considered the first lien on the premises.

## SOCIETY

The Woman's Literary Club met in the club parlors yesterday afternoon, when Mrs. Samuel Horchow gave her excellent report of the recent state convention of Federation of Woman's Clubs held at Toledo. Mrs. Lena Kline Reed gave the Current Events. Delightful music was rendered by Mrs. Arthur Stevens and Miss Madeline Augustin. Mrs. Isabel Thomas gave the criticism. Mrs. George Martin extended an invitation to the members of the club to join the Y. W. C. A. Current Events Club under the leadership of Mr. W. D. Gililand. Ten lessons will be given for one dollar.

One of the prettiest of the many Hallowe'en parties held last evening was a masque party at the Y. W. C. A., where the girls of the house held open house to all the girls of the city who are members of the Association. The many diversions kept the guests going all evening and there was fun from start to finish.

The Thursday Afternoon Kensington Club held a delightful Hallowe'en masque party last evening at the home of Mrs. B. W. Hopkins, on Third street. There were present Mesdames Frank Matthews, Rita Matthews, Joseph Lake, Frank White, William Wood, John Wood, Lucien Locke, Corney Wells and B. W. Hopkins, of the club members. The invited guests were Mesdames Henry Bertram, Orville Sprague, Charles Storer, Jacob Rountree, Clara Geers, Tenger, Little, Misses Thelma Matthews, Katherine and Elizabeth Locke. The guests, all attired in ridiculous costumes, were greeted at the door by Miss Kate Monaghan. The evening was spent in all sorts of Hallowe'en games, after which sandwiches, salad and pumpkin pie was served by the hostess.

Miss Edora White has gone to Cincinnati to take her semi-monthly lesson in music at the Conservatory of Music and will return home Saturday night.

Mrs. Charles Graham entertained last evening with a homecoming. The evening was enjoyedably spent in art needlework, after which ice cream and cake were served by the hostess. Those present were Miss Mamie Legler, Pearl White, Bertha Wilhelmina, Edna Willhelm, Nora Willhelm, Annabel Schuyler, Mildred Libens.

Mrs. Isabel Thomas' class of women of the Second Presbyterian Sunday school held the regular meeting at the home of Mrs. R. G. Applegate, on Seventeenth street, where there were twenty members present. Committees were appointed for the year's work. The hostess served ice cream, cake and coffee. The next meeting will be held at the home of Mrs. John E. Williams.

Mr. and Mrs. George Gulker entertained at supper last evening Dr. and Mrs. Keyes and daughter, Helen, Mr. and Mrs. Edward Shump and son, Edwin, Mr. and Mrs. A. J. Snyder and son, Wayne, of Louisville, and Mrs. Bell Leichner and son, Roy.

The Hallowe'en social given at the First Christian church Friday evening, under the auspices of the Loyal Beraans, was an unqualified success, being attended by upwards of 150 people, every one of whom enjoyed the evening's pleasures to the fullest extent. Many of those present were so well masked that it was impossible to identify them, until the masks were removed. A march around the square was one of the diversions that tended to enliven the occasion, which will ever be recalled as one of the most successful events in the history of the Bible school. At the close of the evening's festivities refreshments consisting of pumpkin pie, coffee and candy were served. The class realized handsomely on the evening's entertainment, their coffers being enriched to the extent of more than \$12.00.

Mrs. Glen Hardin is spending the weekend with her parents in Louisville.

The High School Freshmen Class enjoyed a masque party last evening in the High school gymnasium. Green and pink, the class colors, were used in the decorations, with pumpkins and lanterns used in projection. A fortune-telling booth and games, with piano music by Miss Margaret Quinn and readings by Mrs. Lena Kline Reed, were included in the pleasures. The chaperones were Mrs. Ruby Williams, Dr. and Mrs. E. C. Jackson, Mr. Stout and Dr. and Mrs. W. E. Gaith. Pumpkin pie, cake and punch were the refreshments served.

Mrs. J. J. Hardin entertained her class of Bigelow Methodist Sunday school last evening at her pretty home on Waller street, where a goodly number of members was present. The evening was spent in talk and guessing contests, after which Mrs. Hardin served a hearty repast. The rooms were attractive in the gorgeous Hallowe'en colors.

## When Life's Struggle Seems Hardest

Because men can't always "make both ends meet" they must often have assistance, not sympathy, to tide them over until a better financial condition prevails. Especially is this frequently true of the young married man who wants the happy influence of home surroundings in a cozy home for two. Let this store help you make the new home ideal in its interior surroundings. Our long experience will certainly be of priceless value from the viewpoint of economy.

quence of this failure to give some warning that it was going to turn, the remedy would be a suit for the amount of damages sustained, if the damage was sufficient to warrant the action. However, I would advise you to settle the matter out of court, if possible. It would be pretty hard to collect damages under the circumstances, as it would be your word against his. He probably gave the signal that he was going to turn the corner and you failed to see him do it. If such was the case, the damage resulted from your own carelessness in failing to keep "your eyes open." You will know better the next time.

## SOCIETY

The handsome home of Mr. and Mrs. Levi Dee York was the scene of a beautifully appointed luncheon at one o'clock today, when Mrs. York entertained several young women to announce the engagement of her attractive niece, Miss Mary Elizabeth Watkins, only daughter of Mr. and Mrs. J. L. Watkins, to Mr. Charles Owen Dodson, of Terre Haute, Ind., where he is employed in the office of the Indiana Manufacturing company. The table was beautiful in the artistic adornments. In the center an exquisite French basket was filled with gorgeous feathery chrysanthemums in the delicate pink shades, and the cut-glass candlesticks held pink shaded candles. At each of the ten covers were small copies with sashes of pink tulip, and at the bride's place was a large cupcake, also with sash of pink tulip. On the arm of each of the cupids hung a dainty card with the names Dodson-Watkins, and the month, December, when the wedding will take place. The delicious menu was beautifully served in four courses and the souvenirs were pink-adorned boxes filled with pink and white bon-bons. Covers were laid for the dainty bride-to-be and her special friends: Misses Mary Elizabeth Watkins, Mary Davidson, Nell Turley, Amaryllis Crawford, Augusta and Helen Haldeman, Elizabeth Bannon, Helen Dunn, Ruth

Clare and Mrs. E. D. Stevens. Miss Watkins is one of the most popular girls in the young set and will be much missed by her large circle of friends. Mr. Dodson is a fine young man, with habits beyond reproach, he also having many friends in Portsmouth, where he spent two years while employed in the office of the Hoer Engine Company, leaving here to take a better position in Terre Haute.

The Junior class of the P. R. S. held its first class literary meeting Friday afternoon in the High School auditorium. A short program of music and songs was rendered by the students of the third year class.

Mr. and Mrs. F. A. Stewart and daughter, Bernice, of Sciotoville, of this city.

returned home Friday night from Ashland, O., where they attended the wedding of Charles Coburn, formerly of Harrisonville, now a teacher in the public schools of Boston, Mass. The bride is a popular young woman of Ashland.

Lawrence Allard, who attends the Ohio Dental college in Cincinnati, is expected home tonight to spend Sunday with his wife and baby.

Mrs. M. Coe, of Freeston, is the guest of her daughter, Miss M. Coe, here the young guests departed for a day.

Mrs. Page's class of attractive young girls of the Second Presbyterian Sunday school participated in a ghost party last evening at the home of Miss Bertha Blood, on Park avenue, where there were fifteen members present, all attired in sheet and pillow cases. The rooms were appropriately decorated for the occasion in Hallowe'en decorations. The pleasures consisted of a peanut hunt and pinning the tail on a cat. Refreshments were served here the young guests departed for a day.

## Who Wants Sunday Movies?

One way you have of knowing who wants Sunday Movies is by going to the records and noting who circulated the petitions, and scanning the signatures.

Three of the undersigned committee made such an investigation and they find the petitions were circulated by MANAGERS and HELPERS in MOVING PICTURE SHOWS, a SALOON KEEPER, a BARTENDER, an EX-SALOON KEEPER and others, but NOT AN ACTIVE CHURCH MEMBER ON THE LIST. This shows who wants Sunday movies. For the most part it is the men who will profit thereby. The names on the petitions were examined and not one active church worker was found in the whole list. Does this show that many active church workers are urging passage of this ordinance? On what ground then do the moving picture men make their claim?? It is not the church people who are wanting Sunday movies, but especially the men to whom it will mean ADDED PROFITS:

Why are these men so anxious to open on Sunday? It is not that they are concerned about the morals of the community, it is not their interest in the laboring men, it is not their interest in educating the masses,--these things have been used MERELY TO HIDE THE REAL ISSUE,--the real reason is ADDED PROFITS TO GREEDY MANAGERS.

A VOTE FOR THE OPEN SUNDAY PICTURE THEATRE IS A VOTE AGAINST THE LAW OF GOD, AGAINST THE BEST INTERESTS AND INSTITUTIONS OF THE COMMUNITY. VOTE NO---ON THIS PROPOSITION.

### ORIENTAL PLAY

Pictorially speaking next week's program at the various picture houses in the city will be fraught with worth while features. Each feature will have its direct appeal to lovers of screen comedy or drama and with the cool autumn evenings at hand business should be commensurate with the excellence of the various and varied programs.

Manager Fred N. Tynes of the Columbia on Monday will have "Always in the Way" with Mary Miles Minter, Tuesday "The Campbells Are Coming", five reels of Broadway favorites, Wednesday "The White Sister" with Viola Allen, Thursday "The Master Hand" with Nat Goodwin, Friday "Out of the Darkness" with Charlotte Walker and Saturday the "Girl From His Town" with Marguerite Fischer.

Manager George Law of the Exhibit theatre has a tempting array of features for patrons of his house next week. On Monday he will have Charlie Chaplin and "Bouche Bill Well Paid", Tuesday "The Shadow and Shade", a splendid feature, Wednesday "Victors at Seven" and "He's In Again", Thursday "Mr. Jarr's Vacation" and a three reel feature, Friday "Under Two Flags" a Vignograph feature in 3 reels and "Fables of the Scoff" and Saturday "Counter Intrigue" and "The Angel of Spring".

Beginning next Monday Manager J. P. Potts of the popular Arcana theatre will open a new serial, "The Black Box" which will run for 15 weeks. It is said to be one of the best pictorial serials on the market. Mr. Potts will run an installment of this picture every Monday night. "The Broken Coin" is now being run every Wednesday night at the Arcana. On Saturday, November 6, Mr. Potts will offer his patrons, a Western drama, "The Bison Drama." It is said to be replete with pretty sentiment.

Manager Francis Mack of the Lyric theatre can always be depended on getting patrons of his beautiful house the best there is in Screenland. His next week's program is the most expensive and varied ever brought to this house. It is as follows:

Monday, "The Regeneration" in six reels; Tuesday, Mary Pickford in "Esmeralda"; Wednesday, "Up From the Depths," a magnificent feature; Thursday, "The Second in Command," with Francis Bushman; Friday, "The Juggernaut," with Anita Stewart and Earl Williams; Saturday, "The Spendthrift," with Irene Fenwick. Mr. Mack feels that this program is of sufficient merit to pack the Lyric theatre all week.

The Majestic theatre on Second street will have the following well balanced program for next week:

Monday, "The Battle of Ambrose and Wabrus" and "The Jilt,"

Tuesday, "The Girl From the East," "The Marvelous Marmon," American Film Company's labor attorney, and "The Big Brother,"

Wednesday, "When Harry Met Hamlet Fied," "The Honeymooners," and "Prudence and the Twins."

Thursday, "The Light House" and "The Assayer of Lone Gap."

Friday, "Little Lumber Jack," "Help Help," and "The Root of All Evil."

Saturday, "The Knight of the Trail," "What's in a Name?" and "In Japanese Garden," several rippling comedies fresh from the Nestor and Jokers factories.

The Strand Theatre located on Lawson street, will have the following excellent program for next week:

Monday—Lizzie and the will have Charlie Chaplin in his Beauty Contest, "The Eagle", a test picture "Shanghai" during Thanksgiving week.

## SOCIETY

Mrs. Henry Molster and Mrs. James Cooper gave a children's party last evening at Mrs. Molster's home to celebrate the eighth birthday anniversary of Ruth Cooper and the seventh birthday of Martha Molster. The guests were the members of the Central L. T. I. The party opened with a temperance song, games were indulged in, and the guests wore masquerade costumes. The refreshments were served in the dining-room, with a cake with eight candles and the name of Ruth, on one end of the table, and another cake with the name of Martha and seven candles at the other end. Dainty refreshments were served. The little hostesses received pretty gifts. Those present were: Dorothy May, Frances and Martha Molster, Mary Rose, Mabel Dannert, Ruth Cooper, Edith Ferguson, Louise Hornung,

burn, of Cincinnati; brother of the bride, and Miss Lucile Elford, of Huntington was the maid. Little Miss Bernice Stewart, of Scioto-ville, was the flower girl. The bride wore a gorgeous dress of white embroidered Japanese silk, sent to her from Japan. The favors to the attendants were hand-painted Japanese pins, also sent from Japan. The groom met his bride at the O. W. U., where they both attended school. The groom is a graduate of the Valparaiso, Ind., University, the O. W. U., Delaware, and took a post-graduate course at Harvard. The guests were Mrs. Wear, Mrs. Damont, Mrs. McCann.

Leon Wilson has as guest Mr. McCormick, Jr., of Cincinnatus.

Mr. Charles Coburn, of Boston, Mass., son of Mr. and Mrs. T. A. Coburn, of Scioto, Scioto county, and Miss Viola Hunter, of Ashland, O., were married Thursday evening at five o'clock, at the home of the bride's parents, Mr. and Mrs. James Hunter, in Ashland. Mr. and Mrs. Stephen Stewart, of Scioto-ville, have just returned from Ashland, where they attended the wedding. The attendants were Mr. Frank Co-

ter and Mary Katherine Switalski. Hallowe'en decorations made the rooms attractive. Hallowe'en games were played and refreshments were served.

Miss Ruby Cryer's home, on Center street, was the scene of a Hallowe'en party last evening. The decorations were attractive, in keeping with the season. Music and games preceded refreshments. Those present were: Bowen Prince, Irving Prince, Gertrude Neff, Joseph Davis, Willard Ellsworth, Cecil Snyder, Mary Cryer, Ruby Cryer, Carmen Cryer, Elizabeth Deltz, Katherine Frey, Marie Price, Dorothy Smith, Malcolm Turner.

Mrs. Dan Thomas entertained with a children's party last evening from seven till ten o'clock, at her home on Chillicothe street, where the rooms were attractive in orange and black decorations. Fortune-telling and various Hallowe'en games were the diversions of the evening. At the end of a play-act, Hallowe'en postcards were found by each guest. The souvenirs were Hallowe'en plates and cups filled with candy in colors appropriate to the occasion. The fortunes were told by an old witch, who proved to be Miss Emily Bender. Those participating in the pleasures were: Ruth Oldfield, Ruth Streichl, Mildred Seddles, Mildred Werner, Margaret Lanier, Louella Stokes, Helen and Clara Bender, Helen Colley, Katherine Herms, Margaret Thumm, Howard Browne, Robert Monahan, Fred Miller, Fred Laufer, Billie Purcell, Philip Phillips, Clifton Thomas, George Schirrmann.

Miss Lucille Kyle entertained a jolly group of friends with a masquerade party at the home of her parents, Mr. and Mrs. John Kyle, on Lawson street, which was in gala Hallowe'en readiness, with decorations of autumn leaves and fall flowers, jack-o'-lanterns, witches and black cats. Various Hallowe'en games were played. Music greatly enlivened the lively group of comic make-ups. Delicious refreshments such as pumpkin pie, fruit, candy and ice cream and cake were served. Those present were Miriam Nickel, Elizabeth Myers, Doris Curtis, Valeska Seiling, Lucille Purcell, Florence Sarver, Marguerite Martin, Thelma Workman, Virginia La Neva and Lucille Kyle; Billy Curtis, Fred Seeger, Floyd Bearer, Clyde Ball, Harold Young and Carl Seiling.

Miss Nell Daughtry, of Ninth street, gave a Hallowe'en party last evening, entertaining the young women employed in the Woolworth store. All were in masque and spent a merry evening. Refreshments were served by the hostess.

The members are: Madames E. Besene, D. Bertram, Charles Krick, Jack Hartlage, John Stir, Homer Lutty, Frank Ervin, Albert Ramey, Misses Mary Davia, Jessie Miller, Lena Thompson, Lila Bridwell, Fannie Cole, Mary Heisler, Alice Coyle, Ruth Ross.

## THE FOUR YEAR TERM

The business of Scioto County as a political subdivision is equal in volume to that of a railroad system. The tax-payers of this county have invested in bridges over one million dollars, and have a mileage of roads amounting to hundreds of dollars. Many railroad companies cannot equal this.

What would you think if the N. & W. railroad company were to discharge their railroad employees every two or four years, and "break in" inexperienced men?

Would their stock continue to sell above par? Would they continue to pay dividends?

Criticism is often made to the effect that governmental business is not conducted as efficiently as the business of a private corporation. How can you expect 100 per cent efficiency when the county, and other political subdivisions, are constantly experimenting with new men. Has it ever occurred to you that the county is almost constantly "breaking in" new men, that the present laws compel the officers to seek re-election six months after taking office; that this constant change makes an unstable working force?

Many people believe in a long term for county officers coupled with the recall. A good officer can serve none too long. We should have the benefit of their experience. We endorse the Four Year Term Amendment. We believe it will develop efficiency.

E. M. McCULLOUGH,

Miss Mabel Treat delightedly entertained with a shower at her home last evening in honor of her friend, Miss Goldie James, fiancee of Mr. John McDaniels. To announce the marriage, which is to take place November 3rd, at the home of Rev. E. Ainger Powell, the bride-to-be was blindfolded and given a string to wind up. At the end she found a basket beautifully decorated with many useful presents in it. At 9:30 the guests were invited to the dining room, where a tempting repast was served. The color scheme was yellow and white. The guest list included the Misses Marie Spriggs, Emma Meyers, Sarah and Maud Williams, Jane and Sarah Hartley, Nell Carter, Mabel Treat, Goldie James, Mr. and Mrs. Frank Treat, Mr. and Mrs. Edward Treat, Mrs. Edith Hughes, Mrs. Alva McClelland. The out-of-town guest was Miss Van Ratcliff, of Clarksburg, W. Va.

The Main Street Kensington held an enjoyable masque party last evening at the home of Mr. and Mrs. A. M. Turner, in Scioto-ville, which was decorated in keeping with the occasion. A peanut hunt, games and charades were the pleasures of the evening. Quotations were matched for partners to surper, which was served in an up-stairs room decorated in black and yellow crepe paper, black witches and cats. After supper a prize was given for the best costume. Mrs. Turner, who represented a Southern colored woman, was given a hand-painted hat-pin holder. The clever presentation speech was made by Mr. Lester Finney. In a peanut hunt Mr. Finney won the prize, a box of writing paper, and Mr. Charles Marting was given a baby pacifier as consolation favor. The refreshments were brown bread and chicken sandwiches, pickles, olives, pumpkin pie, doughnuts and coffee. The guests were Messrs. and Madames Arthur M. Turner, L. J. Finney, Bert Brant, Carey Warden, C. L. Marting, Madames Zora Todd, John Hutchens, Davey Purcell, Manuel Will Bennett, Gene MacQuaid, Miss Bess Todd, Mr. Charles Turner, John Simonton and Malcolm Turner.

Miss Ruby Cryer's home, on Center street, was the scene of a Hallowe'en party last evening. The decorations were attractive, in keeping with the season. Music and games preceded refreshments. Those present were: Bowen Prince, Irving Prince, Gertrude Neff, Joseph Davis, Willard Ellsworth, Cecil Snyder, Mary Cryer, Ruby Cryer, Carmen Cryer, Elizabeth Deltz, Katherine Frey, Marie Price, Dorothy Smith, Malcolm Turner.

The Ladies' Aid Society of the German Evangelical church will meet in regular monthly business session tomorrow, instead of Sunday, Nov. 7th, in the Sunday school room.

## Prohibition Facts

Yes, the issue is still Booze and the Saloon.

Time is getting short, the Wets have only a few days left to name one good thing Booze does for Ohio.

### We Are Not Afraid of the Investigation.

Again we say: Do not accept the statements of either Wets or Drys. Think, investigate and analyze for yourself. What do students of business economy, social service workers and leading physicians say? Read the leading magazines. Learn the facts from independent sources--You will then vote dry.

### Some Consistency

The Wet orator says he never touches Booze. Wet campaign managers tell us they are personally dry. Wet saloonkeepers want sober, temperate, even abstaining bartenders. WHAT RIGHT HAVE THEY TO EVEN ASK YOU TO DRINK THE DOPE THEY WON'T TOUCH, LET ALONE VOTE FOR IT.

### "Home Rule Jottings"

"The Supreme Court of the United States upheld the contentions of the liberal people of Ohio regarding the Home Rule amendment, and ruled against the Anti-Saloon League.

"It is now in order for the Anti-Saloon League to pass resolutions declaring the Supreme Court to be tools of the 'Liquor Traffic' and hirelings of the 'Rum Power.'

When did the Supreme Court of the United States ever hear of "Home Rule."

### Why Don't The Wets Tell You The Facts?

None of the upper courts have passed on the interpretation of the "Home Rule" amendment. The only case involving the amendment was started in Franklin county. The issue in that case was whether or not the Home Rule amendment had been adopted. Both the circuit court and the supreme court refused to pass upon the construction of the amendment. Neither wets nor drys have asked for a construction in the upper courts for this reason. The wets are afraid to, because it would lose them votes in this campaign. The drys do not want a construction placed upon the amendment which will destroy any temperance law. No one knows how the Supreme Court will construe this obscure amendment, of which Atty.-Gen. Hogan is reported to have said: "It is awkwardly drawn."

### Poor Booze-Soaked Cincinnati

This was told by a woman speaker on government square last night, not a dry orator, either: Cincinnati is known as the cheap town. When you get in, you never get out, because wages are so cheap, you can't. Thirty per cent of the wage-earners of Cincinnati are women. Sure ly this can't be our beloved booze-soaked Cincinnati.

### Poor Old Cincy Some---More.

"Home Rule Jottings No. 12" would have you believe that Cincinnati folks are fools. They owe over \$60,000,000—could pay it, if they desired, but insist on permission from the state to borrow even more. Or do they think the people are fool enough to believe that? But we have it now. That \$1,000,000,000 assets in Cincinnati belongs to the Booze-bunch. They have the cash but they want the wage-earners of Cincy to pay the bill their booze created. The Booze-trust is the only "corporation on earth that can make such a showing," and incidentally get away without paying its own bill. They believe, not in Ohio money for Ohio, not in Cincinnati money for Cincinnati, but OHIO MONEY FOR THE BOOZE-TRUST.

John Q. Hutchinson, Prosecuting Attorney Raleigh County, W. Va. Says:

"The records show that crime has been reduced three-fourths and that the expense of the criminal courts of the county are only one-fourth what they were before prohibition."

### Booze's Respect For Law

Do the Wets claim that dry Georgia is the only state in the union in which a man was ever lynched. We recall that this same thing happened in Wet Ohio and the man who was lynched was endeavoring to enforce the law that some booze men insisted on violating. Great is Booze's respect for law.

### A Half-Truth, or Worse?

A Wet orator quotes Savings accounts, Building & Loan Asso., money on deposit in Kansas and Ohio. "In other words the people in liberal Ohio have saved more than the people of Dry Kansas." Sounds good doesn't it? But did he tell you the comparative populations of Kansas and Ohio? Did he tell you that Kansas folks use the banks even more than the Buildings and Loans? Did he quote the Bank Deposits? Look at this from the Financial World, October 16, 1915 (Chicago and New York) an unbiased source.

### Kansas Overflows With Money

"Prosperity has overflowed in Kansas. Advices from that state to the farmers in Wall street who plant silver dollars and raise gold ones, state that they never before in their history have deposits in the Kansas banks reach such a point as they have now; that deposits have risen to such a figure that banks and bankers could not receive them without violating the law. The majority of banks, in order to escape the statute, have added to their surpluses or capital accounts in order that the additional deposits might be legally received. There is a provision in the Kansas banking law that no state bank may have deposits exceeding ten times the capital and surplus of the bank, and hence many banks have raised the ante on their capital and sur-

plus." Who ever dreamed of this in Wet Ohio?

### How The Wets Do It

This from A. H. Curry, Dept. Prohibition, W. Virginia:

"I see an article in The Waverly Watchman, published in Pike county, Ohio, headed 'Bad Conditions in West Virginia,' which quotes me as saying among other things that prohibition does not prohibit in West Virginia which is absolutely false, as I have never made any such statement to the above named paper or any other paper. But to the contrary I can safely say that prohibition does prohibit in the state of West Virginia."

### "Home Rule Jottings" Quotes J. G. Rice

In the Abingdon Virginian, Oct. 17, 1914, on the horrible conditions in "Dry" Tennessee. By the way, Abingdon is a village exactly of 1,757 inhabitants. Get the calibre of the paper and writer. We notice also that some Abingdon gentlemen must have been "sore" because booze had just been voted out of Virginia (Sept. 22, 1914). Also we know of one man at least who tried bootlegging in Tennessee and had to hide in Scioto Co., Ohio, during 1914 as a consequence. Ultimately the law got him anyway.

### Is This Anarchy, Mr. Mugavin?

What do you think of the wet speaker, Mugavin who tells you that you cannot make folks good by statutory law; that there is a law against murder, yet murder is committed; that, therefore, you should vote against prohibition, because prohibition will not prohibit? Does he want the law against murder off the statute books? Is that what he is advocating? Is this anarchy he is preaching?

### Mr. Mugavin Or The Women?

Morning papers state that Mr. Mugavin branded as lie the statement that the Ohio Fed. of Women's Clubs at Toledo recently endorsed state-wide prohibition, and that a Cincinnati woman presented the motion. Delegates to this convention from Portsmouth state that the Federation meeting DID endorse prohibition, that the resolution was presented by a CINCINNATI woman. And by the way, her name is Whitaker, and we understand she is president of the Cincinnati Women's Club.

### LUKE McLUKE SAYS:

A Reformer is a lad who spends half of his time telling you what you must not do and the other half telling you what you must do.

### BUD WARNER SAYS:

You're off, Luke. A Reformer is a lad who makes so many dry votes that he is sued by a brewery. And then he goes ahead and makes more dry votes because everybody knows the brewery is playing peanut politics.

# Proper Sunday Recreation Helps

LEGALLY CENSORED MOTION PICTURES ON SUNDAY BENEFIT THE MORAL HEALTH OF ANY COMMUNITY

Of the fifteen thousand motion picture theatres in the United States, fully ten thousand are OPEN ON SUNDAYS. North, East, South and West, the experiment has been tried and the people are pleased with it. Public opinion in the great manufacturing towns is solidly in favor of the right kind of Sunday recreation. Here are some of the places where motion pictures are being shown on Sundays with the approval of the best elements: New York City and all cities in the State of New York; New England towns and cities, including Boston, the citadel of Puritanism; New Jersey; Indiana, where most cities have Sunday Motion Pictures; Ohio, including all the large cities and many of the smaller ones, which we have named before; while in Illinois and throughout the West, Sunday Motion Pictures are the rule and not the exception. In Alabama, Georgia and other Southern states, motion pictures are allowed on Sunday if the character of the day is recognized in the program.

THESE FACTS MEAN SOMETHING. THEY MEAN THAT THE MASSES APPRECIATE AND WANT THE MOVING PICTURE. THEY MEAN THAT THE HUNDREDS OF PEOPLE IN PORTSMOUTH WHO HAVE APPEALED TO THE OWNERS FOR SUNDAY PROGRAMS ARE BUT CLAIMING THE SAME RIGHT AS IS GIVEN IN CITIES ALL OVER THE COUNTRY. THEY MEAN THAT THE MASSES OF THE PEOPLE WANT THE RIGHT TO ARTISTIC AND DRAMATIC ENTERTAINMENT ON SUNDAY, JUST AS THE RIGHT IS GIVEN FOR THE ENJOYMENT OF OTHER FORMS OF RECREATION ON THAT DAY. THEY MEAN THAT, FAR FROM BEING IN COMPETITION WITH THE CHURCH, THE LEGALLY-CENSORED AND PROPER SUNDAY PICTURE PROGRAM MAY, CONSIDERING THE PRESENT DEMAND FOR IT AMONG THE PEOPLE, DO MORE FOR PROMOTING THE MORAL WELFARE AND HAPPINESS OF THE MASSES THAN ANY INSTRUMENTALITY EXCEPT THE CHURCH ITSELF.

THE MATTER IS FOR THE PEOPLE AND NOT FOR THE OWNERS TO DECIDE. THOSE WHO FAVOR SUNDAY MOTION PICTURES SHOULD MARK THEIR SPECIAL BALLOT ON NEXT TUESDAY, AS FOLLOWS:

NOTE: If Sunday pictures are allowed there will be no advance prices for Sundays.

# EXPERT SAYS THE RESERVOIR MAY BE REPAIRED

## Structural Defects Cause Of Break Is Preliminary Report

The first impressions of N. S. Hill, Jr., of the New York expert engineer, whom the J. F. Witmer Company, of Buffalo, is consulting with in regard to the local water works situation and particularly the reservoir failure, are contained in a statement he made public Saturday at the request of Engineer J. F. Witmer.

Mr. Witmer said that he felt it only due the public that he give some expression from Mr. Hill, before he left the city. He said that his purpose in engaging the services of Mr. Hill was two-fold, namely to satisfy himself and the public as well. He likened himself to a doctor who, when he has a bad case on his hands, calls in another physician to consult with. He felt that although he had done the best he knew how in taking care of a bad proposition on the east side of the reservoir and although it is agreed that the reservoir was properly designed and located, the board of control in view of its failure might not trust his judgment in restoring the wall and for that reason he had decided to enlist the services of a man who had never seen the reservoir before and whom he had never before met and knew only by reputation. After learning the contents of the report of the statement he said he did not believe it could be regarded as a "white wash" for any one. Following is the statement:

"I presume that I will be understood, unless I make some statement in regard to the water works situation before leaving Portsmouth. Anything I say, however, must necessarily be general and subject to modification when I submit my report to the J. F. Witmer Company."

I have visited the Filtration Plant Pumping Station and Reservoir. So far as the Filtration Plant is concerned it is as well constructed, modern plant of ap-

proved type. The Pumping Station buildings are of excellent construction and the plant is in my judgment, well located. The piping details about the station are well designed and free of defects for repairs and renewals. There are some difficulties have developed with relation to the pumping machinery, more particularly the centrifugal pumps. It is not unusual to encounter such difficulties in a new plant. Every such plant must be turned up and changes and corrections made to adapt it to service conditions. I have not been able to determine up to this time that there are any organic defects. And I have no doubt that after proper corrections have been made the plant will in all respects fulfill its functions.

With relation to the reservoir, my investigation leads me to believe that the engineering inspection on this work was not efficiently executed at the time of the original construction. This is unfortunate as it permitted the development of certain structural defects which subsequently have proved serious. I am also of the opinion that while the concrete in the side walls is of good character the contractor has slighted the flooring, which also contributes to the failure. There are also certain details about the reservoir, such as the drains for storm water, the covering of the roof with earth and the sealing of the banks to afford proper protection against sliding or cutting, which have not received proper attention. So far as the location of the reservoir is concerned there can be no criticism of that and had the work been properly executed as per the specifications, the present difficulties would have been avoided. The reservoir may be repaired and made useful for service.

In general I might add that under the terms of the contract none of the work can be accepted until approved by the engineers. The J. F. Witmer Company and to date they have not been approved for payment, the work on the pumping machinery or that on the reservoir, so that at present, so far as the city is concerned, they are protected in the matter, so far as such protection is possible, at the hands of the engineers or under the terms of the given contract.

Autoists, going toward Ironton are especially invited to turn in to Nirvana addition, in passing Wheelersburg, and inspect the fine side walls of good character lots now on the market, and get an idea of how Porterman the contractor has slighted the flooring, which also contributes to the failure. There are also certain details about the reservoir, such as the drains for storm water, the covering of the roof with earth and the sealing of the banks to afford proper protection against sliding or cutting, which have not received proper attention. So far as the location of the reservoir is concerned there can be no criticism of that and had the work been properly executed as per the specifications, the present difficulties would have been avoided. ## Appeal Made For Woman Candidate

"It is Not Good for Man to Be Alone." This sentiment was spoken by the Creator at the very dawn of the human story.

Singer that day the race has progressed and life has been enriched by the working of two forces, the one the complement of the other. One we call the masculine and the other the feminine.

The special reference of Deity to the occasion when these words were spoken was to the necessity of the feminine influence in the making of the home. And the home in these primitive days was the ONLY SCHOOL society knew. Through all history the home has been the training influence in the building of character and the making of citizens.

We believe the schools need a woman's influence on their official board just as much as the home. "IT IS NOT GOOD FOR MAN TO BE ALONE," especially in the fundamental work of training the young. FOURTH STREET MOTHER'S CLUB.

Today our means of education

are not confined to the home. The nation has instituted public schools to supplement and enlarge the training of the home. No person is better able to understand the public education of the CHILD than a MOTHER and a HOME MAKER.

Should not the mothers of Portsmouth have a voice in the management of our schools? Do our schools not need those high inspirations that have come to the home from woman's position there? Do not the children have a right to the feminine influence in plans for the public education?

Is it not justice to the womanhood of the community that they who are more than all others RESPONSIBLE for the training of the young, should have a voice in their public education?

We believe the schools need a woman's influence on their official board just as much as the home. "IT IS NOT GOOD FOR MAN TO BE ALONE," especially in the fundamental work of training the young. FOURTH STREET MOTHER'S CLUB.

## WRITES IN INTEREST OF NEW BOSTON CANDIDATE

Harrison Township, O., Oct. 30—

Editor The Times—We see by the paper that our old friend, M. T. Stewart, is a candidate for mayor of New Boston; and, with your kind indulgence, we wish to say a few words through your paper in his behalf. He has been a citizen of that place for the past twenty-five years—or nearly so—and has ever been an energetic "booster" for his home town. He served for twenty years as a justice of the peace, with never a reversal of his judgments by a circuit court. For five years he was postmaster, and the only mistake his books will show is one of ten cents in favor of the government. His career as a public servant is an open book, with every

page a strong endorsement of his fitness, without spot or blemish. He virtually started out in the midst of a wilderness, to make a town of Steamburg, and there it stands today a grand success as a monument to his untiring energy. It is due to his increasing endeavors more than any other one man, that the town can now proudly boast of that great beautiful schoolhouse that stands upon an eminence overlooking the town. Were we a citizen we would be glad of the opportunity of voting for M. T. Stewart for mayor, regardless of politics or any other affiliations in grateful recognition of all that he has done to build up the town.

LOUIE LINDSEY.

## Miss Burke Makes Socialist Address

Miss Lottie Burke, of Cincinnati, delivered a strong address along Socialist lines in Government Square Friday evening and despite the fact that a wet Ohio legislature did not pass a single measure favorable to the

working man. "In fact the 16 measures put up by unionists in this state were decisively voted down", she stated.

"And your politicians and corrupt unionists turned the trick, nobody else. The only way you workingmen will ever get just recognition is to go after the old line politician. He is the man who is barring your way to high pay and shorter hours", the speaker stated.

## Home Rule Jottings

### No. 13

Don't forget—Chas. M. Bryan of Memphis, at Kendall Hall Sunday evening, October 31st.

Vernon J. Rose, Monday evening at 7:30.

Only two more days until election—and yet the Drys haven't answered our inquiry about the Home Rule Amendment.

Great are the reformers; the Non-Smokers Protective League of America at their meeting urged President Woodrow Wilson "should he is hereby requested," to prohibit tobacco smoking in all governmental offices.

### United States Constitution.

We, the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and SECURE THE BLESSINGS OF LIBERTY TO OURSELVES AND OUR POSTERITY, do ordain and establish this Constitution for the United States of America."

### News from Dryest Kansas:

(St. Joseph Gazette, January 2, 1915.)

Topeka, Kan., January 1.—Taxes in Kansas have increased 116.18 per cent in the last thirteen years, according to the biennial report of the state tax commission, just made public. Kansas received in taxes for all purposes in 1900 a total of \$13,564,594.20. In 1913 Kansas' tax bill was \$29,394,495, an increase of \$15,759,909.80.

There is no Commandment against the use of wine or liquor; there is a Commandment, "Thou shalt not bear false witness against thy neighbor." What have the Drys to say in regard to the misrepresentations about the Wet, posted on many Ohio churches last fall?

Danger for Government Lurks Behind National Prohibition, William Howard Taft Says.

Boston, December 28.—National prohibition is a dangerous proposition, said former President William H. Taft, speaking before the Bar Association of Boston at its seventeenth triennial banquet tonight.

"It would revolutionize the National Government," he said. "It would put on the shoulders of the Government the duty of sweeping the doorsteps of every home in the land. If national prohibition legislation is passed, local government would be destroyed. And if you destroy local government, you destroy one of the things which go to make for the healthy condition of the National Government."

"National prohibition is nonenforceable; it is a confession on the part of state governments of inability to control and regulate their own especial business and duty; if the matter were placed under Federal control it would result in creation of a machinery of government officials large enough to nominate any president and would offer too great an opportunity to persons seeking to perpetuate their power in Washington."

### Luke McLuke Says:

One reason why we are against Prohibition is because if a man doesn't like water we do not propose to help hold his nose and make him take it against his will.

**STREET PAVING CLAIMS.**

It was a little unfortunate for Judge Osborn, one of the defeated primary candidates to make his one and only loyalty-to-the-candidate speech out in the Fourth Ward.

The judge was trying to impress his hearers with the importance of council in the present code system. That is, to claim credit for popular measures, but to shove blame for anything unpopular upon the executive departments.

But in the old days when council used to have more latitude in the matter of authorizing and supervising contract expenditures, Judge was also a member of Council. The Fourth Ward residents remember how he opposed the paving of Gallia Pike, from Waller Street to the Corporation Line, and also the draining of the Kirby pond at the Broadway Street intersection.

It was necessary for West End Democrats like Mike Stanton to join with the East End Republican Councilmen in order to insure this work.

Then came the Democratic Glidden administration, and it paved this part of Gallia Street with one of the best contractors the City ever had doing the work. It was built 25 years ago, with sand and gravel base, and despite being torn up for various kinds of mains, and its heavy travel, it is still one of the best paved streets in town.

Gallia Street citizens and Fourth Ward people, generally, recognize in Mayor Frick a far-seeing, practical executive. One who advocates progress and building of improvements that will take care of the future.

**CONCERNING CONTRACTS.**

While on the subject of paving contracts let us revert to one of very recent date.

A big Republican taxpayer reminds us that the public mind should be jogged regarding the paving of the second mile of Chillicothe Pike.

On that job the contractor had nearly 120,000 paving brick hauled out there, and when they were unloaded it was found that 59,000, or nearly half, had to be turned down as unfit, and returned at heavy expense to the contracting parties.

Appeals to the State Highway Commissioner had no effect, but the abuse, which then County Surveyor George Wilhelm, had to stand, was something terrific.

We didn't see any article in the Enquirer boasting on that contracting job, but we did hear that certain irate interests were going to spend \$1,000.00 to beat Wilhelm for County Commissioner.

Mr. Wilhelm is now City Engineer by grace of Mayor Frick. There is no doubt but that certain interests would like to see both relieved from their posts as guardians of the public funds.

**THE BETTING SCARE.**

Orator Hard was much perturbed in his Friday night speech over some alleged betting activities, upon the part of Frick supporters.

The offer of wagers most blatantly noised around are the part of certain interests that have a grievance against Mayor Frick because he insists on strict regulation of their business. It is all sentiment with these would-be betters and they have absolutely no dope on which to base their offers.

A few gang leaders will incite these fellows on to risk their money for the effect that it will have among a certain element.

No, Brother Hard, the Democratic Committee is not placing any bluff bets out, but is spending its money for legitimate campaign expenses. There will be no keg parties or vote buying upon the part of the Frick Campaign. Perhaps if all candidates past, present and future had not been milked dry by that disgraceful primary fight, your committee would have had money left for election advertising.

Most likely, though, the ads are not appearing because the gang has nothing to advertise. It is a singular campaign, when a Mayor has been in office for two years, and the opposition can find absolutely nothing upon which to make an issue against his second term.

**THE SOFT PEDAL.**

It was the boast of several of the more decent Republicans who attended their meeting at headquarters Friday night, that there was a notable absence of personal abuse of Mayor Frick.

This leads to the pertinent inquiry as to who put the soft pedal on the "petit larceny" attorneys and the alleged humorists.

But likewise the water works subject was tabooed and instead they listened to fulsome eulogies of the Grand Old Party the Protective Tariff and a few other stock subjects of the opposition.

Judge Holcomb, Will Meyer and several others of the new orators are always entertaining talkers and no doubt a pleasant time was had by all.

Meanwhile, Mayor Frick has been conducting a dignified campaign in which none of his official duties have been slighted.

The day of the mud slinging campaign is fast disappearing, and in such isolated instances as this one, such calumny always reacts upon the organization which uses these methods.

**ANOTHER GOOD MAN.**

In the Third Ward advertisement by the Democratic Committee, through an oversight the name of James M. Horton for Constable was omitted. Mr. Horton is likewise a Third Ward resident, and this makes a total of four Democrats from that ward, as against only one from the Third Ward on the Republican ticket.

Mr. Horton is the successful grocer and meat dealer, who has been located for five years at Twelfth and Railroad Streets. He is popular with all classes of citizens, and his honesty and fair dealing can be attested by any wholesale house in Portsmouth.

Besides a pleasing personality, Mr. Horton has had considerable police experience. In his native state of Virginia he has successfully filled the position of Deputy Sheriff under his father, and he has also acted as Bailiff and Police Officer at his former home.

Mr. Horton enjoys a wide acquaintanceship over the City, has been a resident here for nearly ten years, and is bound to make a splendid showing.

**Mr. Tax Payer:** Why is it that contractors who have uncompleted or unsatisfactory jobs on the new water works are a unit in soliciting their friends to vote against Mayor Frick and to vote for H. H. (Bert) Kaps for Mayor?

# IN THE MIGHTY FOURTH WARD

Taxpayers and voters are giving earnest consideration to municipal matters.

They appreciate the good service of the Frick administration in connection with these improvements:

1. The splendid Gallia Pike paving job.
2. The paving of 15 other Fourth Ward streets.
3. Storm sewer relief on the hill tops.
4. Building of the Lawson Run Viaduct.
5. Beautifying Greenlawn Cemetery.
6. Installing many new street lights.
7. Improvements in the Mabert Road area.
8. Paving and sewerage East Portsmouth.

**WITHIN THE NEXT YEAR THE FOURTH WARD WILL WITNESS THE BIGGEST MUNICIPAL UNDERTAKING SINCE THE ILL FATED WATER WORKS IMPROVEMENT WHICH IS...**

A complete Storm and Sanitary Sewer System for the hill tops and Lawson Run territory.

Experience is a dear teacher--if you like the way Mayor Frick holds public contractors to their specifications, vote for him for a Second Term.

## What Does The Democratic Ticket Offer Fourth Ward Voters, Besides Mayor Frick

### MR. JACOB HOBSTETTER, for Fourth Ward Councilman

A born mechanic, for 16 years employed as foreman at one of the city's largest industrial plants. Vote for him.

### MR. JASPER NEWMAN, for Councilman-at-Large

Of the firm of Newman Bros., Building Contractors, which built some of our finest hill top homes. He is a resident of your ward. Vote for him.

### MR. J. QUINN PAYNE, for Councilman-at-Large

Norfolk and Western passenger engineer, high in the Councils of the Railway organizations. A practical mechanic and public spirited home owner. He is a resident of your ward. Vote for him.

### MR. JOHN R. LYNN, for City Treasurer

Life long Portsmouth resident. He is both painstaking and efficient. He is a resident of the Fourth Ward. Vote for him.

### LOUIS H. SEILING, for Justice of the Peace

Experienced in the work of magistrate's court, where he has served the last four years as Constable. He is a resident of your ward. Vote for him.

Mayor Frick's administration has these efficient subordinates, all residents of the Fourth Ward: Mr. James Foley, assistant Service Director; Mr. Will B. Richardson, Service Department Clerk; Mr. Lynn and Mr. Shute of the Water Works Department; Chief McQuat of the Fire Department; Grover Kinley, Assistant Engineer and others.

These Candidates and appointees are well distributed over the big Fourth Ward, so that interests of all sections can be well looked after.

**True Secret of Keeping  
Youthful Looking**

(The Beauty Seeker.)

The real secret of keeping young-looking and attractive is to keep the liver and bowels normally active. Without these regulaires, poisonous wastes products remain in the body, which pollute the blood and poison various organs, tissues, joints. One becomes fatigued, pale, nervous, mentally sluggish, dull-eyed, wimpy, etc., instead of fresh.

To let liver and bowels working as they ought, without producing any after-effects, has been discovered recently, in the form of a prescription of well-qualified merit, which may now be had in convenient tablet form. Its value is due largely to its ingredients, which are the bark of the root, or its root, which has been called "vegetable calomel" because of its effectiveness—though of course it is not a true calomel, but a natural, medicinal origin. There is no habit-forming constituent in these tablets—that's the name—and their use is not at all severe, though these harmless vegetable tablets tend to impart tone and elasticity to the relaxed intestinal walls, and to the liver, as well as to the kidneys. From any druggist—a dime's worth will do—and will prove a revelation to any constipated, liver-troubled person."

**Chief Cause of Pimples,  
Blisters, Sallow Skin**

(Messenger of Health.)

Unhealthy eruptions, pimples, boils, blisters, sallow skin, are caused by an attack to a sluggish liver, a constipated bowel—and a polluted blood stream as a consequence. How foolish in such cases to resort to nostrums, and tonics, which can never cure natural, permanent remedies. If more people only knew it, there is a very simple remedy to be found in any drug store, which is effective in all diseases and quick acting. It is an old formula, long recognized by the medical profession, which has been put in tablet form, and at a small cost to those who are deprived of its wonderful benefits.

"Sentinel tablets"—that's the name—of the remarkable product, made of earth-forming ingredients. You need only get about a dime's worth, and swallow one tablet to realize what's nothing else than the power of the sun. The action in the morning is so easy, so soothing, and instead of a weakening after-effect, you feel more refreshed and invigorated. Sentinel tablets are not only the finest remedy known for constipation and torpid liver, but offer the safest, most sensible treatment for complexion difficulties of the character mentioned.

**Great Demand for New  
Constipation Remedy**

They say that the advent of the "sentinel tablet" was a vegetable substitute for calomel and saltpeter, which were believed to be the remarkable product. It seems to have made a hit particularly with those afflicted with chronic constipation, who were quick to recognize the value over calomel and the usual laxatives.

Sentinel tablets, aside from their effectiveness, are especially valuable in a tendency to aid in bringing about natural functioning—instead of encouraging the "cathartic habit." Also, instead of attacking the organs directly, as calomel does, they exert a healing influence. Instead of weakening, they add tone to the intestinal wall. And they work quickly, too. The tablets are, of course, preferred on this account to the violently acting purgatives. Their inexpensiveness, however, is another great virtue of sentinel tablets. One need procure only a dime's worth, and take one tablet upon retiring, to be convinced that the need for calomel, saltpeter, and other purgatives, and their many evil consequences, has finally been found. **Woodmen of World  
Plan For Smoker**

Final arrangements for the big smoker and presentation exercises to be participated in by the Camps of Portsmouth, South Portsmouth and New Boston, were made at the meeting of River City Camp, Woodmen of the World, Friday evening.

The trophies won by the three degree teams of the Camps at the recent Tri-State Log Rolling will be presented to them with impressive ceremonies at this meeting, and will be followed by a big social session. A class of about thirty candidates will be initiated

at this meeting.

One week from next Sunday, the local degree team will go to Jasper, Pike county, to have charge of the unveiling of a monument over the grave of a deceased brother.

On Monday evening, Major Roy McElhaney and Captain Leslie Janetsky will go to Chillicothe to enjoy a social session given by the Chillicothe degree team.

Two candidates, George Morrow and John Moore, were initiated at the meeting Friday evening.

Narrowed down to the individual, the above assertion is easily substantiated. Even as rampant as the enthusiasm exists right now in the two opposing political camps, the health of the family is of first import.

Mrs. J. H. Cox, of 1611 Summit Street, is another of Portsmouth's best people to publicly praise the "Master Medicine."

The fame of Tanlac is spreading with lightning-like rapidity.

Nothing but praise is heard on all sides, regarding this remedy, and it is producing wonderful results in relieving suffering every day.

People who have been sufferers from various maladies of many years' standing, voluntarily tell for the benefit of their friends, of the great results that they have received from the use of Tanlac.

Tanlac gives relief in instances of stomach, liver, kidney and intestinal troubles, catarrh of the mucous membranes and rheumatic conditions.

Tanlac is on sale in Portsmouth at the Fisher & Streich Pharmacy, corner Sixth and Chillicothe Sts., where representatives are ex-Ady.

ON THE PUBLIC SQUARE****"BONE BREAKER" HOODOO AFTER HIM**

Charles Anderson, Scioto Trail farmer, who had his right leg broken near the ankle Friday afternoon figured in a like accident about a year ago. Friday afternoon his team ran away near Glover street on Gallia and Anderson was thrown from the wagon. Anderson was moved to

the home of his sister, Mrs. C. L. Frederick, Union and Sixth streets where he will remain until the bone knits.

On November 6th last Anderson was unloading fodder on the farm when the team ran away. The bone fractured. Friday was not the same one fractured on the farm.

**Police Kept Busy**

Halloween pranks of mischievous youths kept the police on the jump responding to calls from all parts of the city Friday night. The telephones at police headquarters

were kept hot by the numerous complaints and Sergeant James Marshall was certainly one busy man.

So far as learned no property damage of a serious character occurred anywhere.

**NEW OPENING HOUR**

Beginning November 2, those retail stores employing union clerks will open for business at 7:30 o'clock instead of 7 o'clock. This plan will

be followed during the months of November, December, January and February, when the earlier opening hour will be re-established.

**THE BROTHERHOOD CLASS**

The members of this popular class for men are urged not to miss the lesson to be taught at the Sunday morning session of the Brotherhood. The Translation of Elijah provides the main topic and the lesson will deal with the great questions of Preparedness for Death, Immortality and Judgment of Character. If you wish to be thoroughly prepared to take part in the discussion, read the 19th and 21st chapters of the First Book of Kings, and the 1st chapter and the first eighteen verses of the 2nd chapter in the second Book of Kings.

The discussion of the lesson, which is participated in by most of the members, is a feature of the work of this class for men. All adult men are made heartily welcome, and if you are not at present attending a Bible class, we will be glad to see you at the corner of Fourth and Court streets, any Sunday morning, at 9:30 o'clock.

**BIG ELEVENS WILL  
CLASH TODAY**

Chicago, Ill., Oct. 30.—The undefeated elevens of the "Big Nine" fought it out today to decide which pair of teams shall clash this afternoon. Both blue and crimson teams will again face elevens capable of putting them to a severe test. Yale's chances of victory over the strong Colgate eleven at New Haven were regarded before the game as dubious.

Harvard men hope that the crimson team will show some of its old-time ability in the game with Penn state at Cambridge.

Princeton looked for an easy victory over Williams at Princeton, while the Dartmouth eleven anticipated a hard battle with Amherst. Other games in the east are:

Army vs. Villa Nova, at West Point.

Michigan vs. Syracuse at Ann Arbor.

Michigan Aggies vs. Oregon Aggies at East Lansing.

Notre Dame vs. South Dakota at Notre Dame.

Cincinnati vs. Kentucky at Lexington.

Western Reserve vs. Dennison at Cleveland.

Mount Union vs. Case at Alliance.

Kenyon vs. Oberlin at Oberlin.

Kent Poly vs. Louisville at Louisville.

Phillips Andover vs. Yale freshmen at Andover.

Phillips Exeter vs. Princeton freshmen at Exeter.

New York, Oct. 30.—Whether the Harvard and Yale elevens have

began to improve after their defeats earlier in the season, is the big question that may be solved in eastern gridiron battles this afternoon.

## CALBERT MADE 13 HOME RUNS

Portsmouth had five players in the ten best sluggers in the Ohio State league showing, as many as the other five clubs put together. Sharman ranked second, tied with Calbert of Ironton, with DeBerry of Maysville leading. Sharman led the league in two base hits, and was tied with DeBerry for the most triples. Calbert led in home runs with 13. The other four players in the local line-up among the first ten sluggers were Dillhoefer, Dilts, McHenry and Caton. The official figures are:

## Rev. W. C. Hartinger At Trinity Tomorrow

On Sunday evening, October 31, at seven o'clock, the Rev. W. C. Hartinger of Wheeling, W. Va., formerly pastor here, will preach at Trinity Methodist Episcopal church, Gallia and Offene streets. This will be good news to his many hundreds of friends throughout the city, all of whom we hope will want to hear him. Sunday evening will be known as Men's Night and all of the men of the Bible Class and their friends will meet in the basement of the church and march in a body to the auditorium where a section of seats will be held in reserve for them. Some very attractive music has been planned for this service, including a song by the men, which we know you will enjoy. A most cordial invitation is extended to all. Come and help us welcome Reverend Hartinger back to his old church. The music for Sunday evening will be as follows:

Prelude — Military March — Schubert.  
Ladies' Chorus—"At Eventide It Shall Be Light!"—Gaul's Holy City.  
Offertory—Violin Solo — Mrs. Hard.

### THE GERRYMANDER.

It ought to be plain to every thinking man that the best interests of Scioto county are better conserved in the Sixth congressional district than they would be in a one-sided, warring district like the Tenth, to which we are consigned in case the Sprague law is sustained at the election next Tuesday. In the Sixth district Scioto county is easily the most important county and stands a splendid chance of getting anything that she wants. Her wishes will be consulted by the other counties and members of congress from the Sixth will keep an ear to the ground to know what Scioto wants. This county can make and unmake congressmen, supporting the men who are loyal and honest and capable, and opposing men who are unfaithful to their trust. In short, in the Sixth district, we are an enviable position. In the Tenth, it is different. We are but one of a series of overwhelmingly Republican counties. Their associations with us in the past have not been of the most harmonious character and they are more than likely to unite against us, rather than fight with us. The proposed district is already set up to continue Robert M. Switzer in congress and the ambitions of other Republicans in the district are throttled in advance. With an overwhelming majority at his back, Mr. Switzer can snap his fingers at Scioto. What does he care whether or not this county is satisfied with his votes in congress and what recourse has Scioto if it is displeased?

Again it is of more than ordinary importance to laboring people that Scioto remain in the Sixth district. As close as it is, we can rest assured that a congressman from this district will not be selling himself to predatory corporations, at least not if he expects to remain in congress. Have you ever thought of that phase of the question, Mr. Workingman?

In short, there is every reason why Scioto county citizens should vote against the Sprague law.

### BRICK ROADS.

(Dayton Daily News.)

Now that we have begun to discuss seriously good roads, for Montgomery county, with every prospect of obtaining them, anything pertaining to road making material, or to road construction, is of interest. No definite plans have as yet been agreed upon, and no plans can be agreed upon until further along in the game, when the money is in sight, but it is well to begin a discussion of the subject, to the end that when the time comes the people may be better informed as to the nature of roads in other parts of the country.

Franklin county, in which Columbus is situated has had a good deal of experience in road making. Several years ago a party of solid business men got together and determined that the county should have better roads. These men went to the candidates for commissioner. They told the candidates that they wanted good roads, and were going to use every effort to obtain them, and they wanted to know right in the beginning how they stood upon the question. After consultation, three candidates were agreed upon—men whom the little party of business men found to be absolutely on the square and reasonably intelligent. These men were elected, and made good. They have since been re-elected several times, and Franklin county today has the best roads of any county in the state outside of Cuyahoga county—thanks to three commissioners and the people who support them because of their intelligence and integrity.

So we may well look to Franklin county for valuable experience. The commissioners in Franklin county lacked experience in road building, and all of the roads constructed were not a success. Such roads are being replaced. But the roads that failed to prove successful are known, and there will be no occasion for our making similar mistakes. We can just as well adopt the kind of roads that did prove successful, and when the time comes it is to be hoped that our commissioners—wherever they may be—will study the experience of Franklin county.

The editor of the Ohio State Journal, published at Columbus, who has of course been familiar with the Franklin county experiments, is strongly in favor of brick roads. In a recent editorial in the State Journal the following comment is to be found:

"The experience of the last few years, in which the character of traffic on the public highways has changed so remarkably and so rapidly, proves that brick is the best paving material now known for country roads. Brick roads cost more to build than macadam or concrete, but they last so much longer that they must be cheaper in a term of years. A brick road surface, properly laid at the right season of the year, requires almost no attention and is practically indestructible."

Macadam, on the other hand, has proved its unsuitability for present-day traffic. Some of the fine macadam roads in this county, built only two or three years ago, are worn out already. They must be worked on almost all the time to keep them free from holes and ruts. They simply cannot stand up under the strain put upon them by automobiles. Concrete as a country-road pavement is still more or less in the experimental stage. It is cheaper than brick; but it does not seem able to withstand the freezing and thawing of spring and fall as it cracks and seamed.

Brick is a miserable thing and dangerous. In the light of present knowledge, brick is by all odds the most satisfactory paving material for country roads.

"Our county commissioners have done nobly in their work of road improvement. Franklin county roads now are nothing to be ashamed of; they are almost uniformly good, in fact, but the only way they are kept so is by almost constant repairs. If they had been surfaced with brick, instead of macadam, they would give much better service, last much longer and probably cost much less in the end. The commissioners will do well now to give up macadam and go over to brick, as new road construction becomes necessary. We hope within a few years to see every main Franklin county road paved with brick to the county line."

George L. Gableman has made an ideal official. He ought to be unanimously re-elected as city auditor. And bear in mind that that office is one of the most important of all city offices, for the city auditor is the watch dog of the treasury.

Another thing Pure Food Doc Wiley says is that 95 per cent of the children have bad teeth. Only another argument children should be taught to save their pennies instead of squandering them for impure candy that is most injurious to the teeth.

According to the cablegrams the British submarines are playing fit or fat with German freighters in the North Seas. And at that if they are doing as much destruction as claimed, the greater wonder is why they did not get at it sooner.

By the way, wouldn't the mayor's typewriter that affords the G. O. P. jawsmiths so much amusement, make some noise if he were to operate on schedule in that empty reservoir?

One day within the week the Norfolk and Western handled more coal cars than on any other day in its history, as likewise did the Chesapeake and Ohio, both sort o' belonging to us. Spells more ruination from these Democratic times.

### WAITING

### VERY MUCH ALIVE.

Those who held to the insistence that Bryan is a dead one either as politically, statesmanly, publicly or otherwise, will have occasion to wipe away their tears, when they read of his reception Thursday night; mind you, Cincinnati, and he was talking for publication at that. For according to the Enquirer, which has long been suspected of a desire to peach his funeral, Music Hall, where he spoke, and which holds thousands, was crowded to suffocation, while other thousands, unable to get in, stood on the outside. That was all either, for his audience had to wait for two hours after the appointed time for him to put in an appearance, and it waited. Further still, the Enquirer is forced to narrate, he is still the same Bryan, forceful, eloquent, magic of voice and adroit in presentation of his ideas. Yes, it looked like the old frantic days of 1896, when he drew to the same place forty thousand people, the largest political gathering, before or since, witnessed in Cincinnati. And now as then he swayed his audience with that surpassing appeal of his word, one moment raising them to an ecstasy of applause and the next stifling them into a silence that was next to death.

No, there is no peer of "The Great Commoner" when it comes to playing on the emotions, and that has been the failure of his career. He moves too much and convicts too little. That is the strangest thing of all too, for none is so clever as he in presenting his own views and so skillful in exposing the weakness of the opposition.

### JUST A WORD.

According to the logic of that powerfully unconvincing orator, Nate R. Gilliland, Mayor Frick is responsible for that busted reservoir, because the Tyne administration realized it was built upon something more shifting than sand and drove some stakes in some more shifting stuff below to hold it.

We suppose Nate's idea is that Adam should have gotten out and held those stakes up.

But here is just one fact: The reservoir could have been made safe and secure for ages by going down less than two feet more and laying both foundation and floor on solid rock, which is right there.

Why wasn't that done in the first place, instead of trying the entirely futile thing of trying to brace the walls with sticks?

Roy must be trying to qualify as a thirty-third degree politician. Else would he not be so gustily eating crow on that gerrymander proposition. Actually it was a joke, almost state wide, when Roy went blustering up to Columbus, proclaiming the legislature should not gerrymander Scioto out of the Sixth district, destroying his chances for congress. Now it is a near truce with Roy working his jaws as though he liked it.

Between as the contractors on the water works are not putting anything over on Mayor Frick though some of them still seem to be quite willing to try it.

The latest bulletin is that even the self-imported audiences are getting tired of listening to the jawsmiths and many are sneaking off.

What the town needs is to elect a mayor that will be mayor. Now is no time to choose one for whom others will do the mayoring.

Dr. Wiley says hardness is due to heat pressure. We knew it, we knew it. And sure that fellow was mistaken when he called us a swell-head. It wasn't the head swelling, but the hat shrinking.

It doesn't take much to make Wall Street throw a conniption fit. She had one Thursday over a new French cabinet.

Among other signs of the Democratic times is a spectacular rise in the Connellsville coke markets.

And now Greece and Turkey are cut off from postal money order exchange with this country.

New York, Oct. 30.—Anna Held and those beautiful eyes are back on Broadway. She comes from war stricken France to frill away a few months with brilliant lights on every hand. Brokers' offices, bond houses, dealers in cotton, grain and meat, all are so busy that they are working night and day shifts.

The boom reminds the few survivors of ancient days of the bustling times of gold speculation. It is a poor day when less than 1,000,000 shares are sold on the Stock Exchange. In one day last week \$6,000,000 worth of bonds was sold.

Everybody in the district shares in the prosperity. Restaurants which ordinarily bid for the non trade and close before dusk, are now a glister with glaring electric signs. "We Are Open at Night". Tailors and barbers in the

Warsaw, Ind., Oct. 30.—Carrying the ball across for touch-down that won the game for his team, Billy Sunday, Jr., son of Evangelist and Mrs. Billy Sunday, of Winona Lake yesterday suffered a broken leg. Young Sunday was a member of the Winona School

team and was performing to the utmost satisfaction of his illustrious sire, who was dancing and shouting with glee on the sideline. "It's all right, Billy, you won the game," was the encouragement that came from the evangelist as he helped to carry the lad to his home nearby.

## Shamrocks To Play Ironton On Sunday

Portsmouth's best football eleven, in place of Gus Haislet and Orville Montgomery replaces Bush as captain. The following players will make the trip Sunday accompanied by Coach Dodge and Manager Bush: Burris and Simpson, l. e.; Haislet, l. t.; Young, l. g.; Burtram, c.; Gardner, r. g.; McMaster and Putzke, r. t.; Webb, r. c.; Smith, q. t.; Montgomery, f. b.; Doyle and Bryant, r. h. b.; Ford and Prior, l. h. b.

Coach Dodge has put the lad through a hard week's practice and they are in the best of shape to meet the up-river aggregation. Larry Bush has been elected manager.

### GRAY HAIR BECOMES DARK, THICK, GLOSSY

Look years younger! Try Grandma's recipe of Sage and Sulphur and nobody will know.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wright's Sage and Sulphur Compound." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application of two, your hair becomes beautifully dark, thick and glossy, and you look years younger.

In short, there is every reason why Scioto county citizens should vote against the Sprague law.

### BRICK ROADS.

(Dayton Daily News.)

Now that we have begun to discuss seriously good roads, for Montgomery county, with every prospect of obtaining them, anything pertaining to road making material, or to road construction, is of interest. No definite plans have as yet been agreed upon, and no plans can be agreed upon until further along in the game, when the money is in sight, but it is well to begin a discussion of the subject, to the end that when the time comes the people may be better informed as to the nature of roads in other parts of the country.

Franklin county, in which Columbus is situated, has had a good deal of experience in road making. Several years ago a party of solid business men got together, and determined that the county should have better roads. These men went to the candidates for commissioner. They told the candidates that they wanted good roads, and were going to use every effort to obtain them, and they wanted to know right in the beginning how they stood upon the question. After consultation, three candidates were agreed upon—men whom the little party of business men found to be absolutely on the square and reasonably intelligent. These men were elected, and made good. They have since been re-elected several times, and Franklin county today has the best roads of any county in the state outside of Cuyahoga county—thanks to three commissioners and the people who support them because of their intelligence and integrity.

So we may well look to Franklin county for valuable experience. The commissioners in Franklin county lacked experience in road building, and all of the roads constructed were not a success. Such roads are being replaced. But the roads that failed to prove successful are known, and there will be no occasion for our making similar mistakes. We can just as well adopt the kind of roads that did prove successful, and when the time comes it is to be hoped that our commissioners—wherever they may be—will study the experience of Franklin county.

The editor of the Ohio State Journal, published at Columbus, who has of course been familiar with the Franklin county experiments, is strongly in favor of brick roads. In a recent editorial in the State Journal the following comment is to be found:

"The experience of the last few years, in which the character of traffic on the public highways has changed so remarkably and so rapidly, proves that brick is the best paving material now known for country roads. Brick roads cost more to build than macadam or concrete, but they last so much longer that they must be cheaper in a term of years. A brick road surface, properly laid at the right season of the year, requires almost no attention and is practically indestructible."

"Macadam, on the other hand, has proved its unsuitability for present day traffic. Some of the fine macadam roads in this county, built only two or three years ago, are worn out already. They must be worked on almost all the time to keep them free from holes and ruts. They simply cannot stand up under the strain put upon them by automobiles. Concrete as a country-road pavement is still more or less in the experimental stage. It is cheaper than brick but it does not seem able to withstand the freezing and thawing of spring and fall and it cracked and seemed to be a miserable thing and dangerous. In the light of present knowledge, brick is by all odds the most satisfactory paving material for country roads."

"Our county commissioners have done nobly in their work of road improvement. Franklin county roads now are nothing to be ashamed of; they are almost uniformly good, in fact, but the only way they are kept so is by almost constant repairs. If they had been surfaced with brick, instead of macadam, they would give much better service, last much longer and probably cost much less in the end. The commissioners will do well now to give up macadam and go over to brick, as new road construction becomes necessary. We hope within a few years to see every main Franklin county road paved with brick to the county line."

George L. Gableman has made an ideal official. He ought to be unanimously re-elected as city auditor. And bear in mind that this office is one of the most important of all city offices, for the city auditor is the watch dog of the treasury.

Another thing Pure Food Doc Wiley says is that 95 per cent of the children have bad teeth. Only another argument children should be taught to save their pennies instead of squandering them for impure candy that is most injurious to the teeth.

According to the cablegrams the British submarines are playing fit or fat with German freighters in the North Seas. And at that if they are doing as much destruction as claimed, the greater wonder is why they did not get at it sooner.

By the way, wouldn't the mayor's typewriter that affords the G. O. P. jewsmiths so much amusement, make some noise if he were to operate on schedule in that empty reservoir?

One day within the week the Norfolk and Western handled more coal cars than on any other day in its history, as likewise did the Chesapeake and Ohio, both sort o' belonging to us. Spells more ruinous from these Democratic times.

### VERY MUCH ALIVE.

Those who held to the insistence that Bryan is a dead one either as politically, statesmanly, publicly or otherwise, will have occasion to wipe away their tears, when they read of his reception Thursday night; mind you, Cincinnati, and he was talking for prohibition at that. For according to the Enquirer, which has long been suspected of a desire to preach his funeral, Music Hall, where he spoke, and which holds thousands, was crowded to suffocation, while other thousands, unable to get in, stood on the outside. That wasn't all either, for his audience had to wait for two hours after the appointed time for him to put in an appearance, and it waited. Further still, the Enquirer is forced to narrate, he is still the same Bryan, forceful, eloquent, magic of voice and adroit in presentation of his ideas. Yes, it looked like the old frantic days of 1896, when he drew to the same place forty thousand people, the largest political gathering, before or since, witnessed in Cincinnati. And now as then he swayed his audience with that surpassing appeal of his word, one moment raising them to an ecstasy of applause and the next stilling them into a silence that was next to tears.

No, there is no peer of "The Great Commoner" when it comes to playing on the emotions, and that has been the failure of his career. He moves too much and convicts too little. That is the strangest thing of all too, for none is so clever as he in presenting his own views and so skillful in exposing the weakness of the opposition.

### JUST A WORD.

According to the logic of that powerfully unconvincing operator, Nate B. Gilliland, Mayor Frick is responsible for that busted reservoir, because the Tynes administration realized it was built upon something more shifting than sand and drove some stakes in some more, shifting stuff below to hold it.

We suppose Nate's idea is that, Adam should have gotten out and held those stakes up.

But here is just one fact: The reservoir could have been made safe and secure for ages by going down less than two feet, more laying both foundation and floor on solid rock, which is right.

Why wasn't that done in the first place, instead of trying the entirely futile thing of trying to brace the walls with sticks?

Roy must be trying to qualify as a thirty-third degree politician. Else would he not be so gustily eating crow on that gerrymander proposition. Actually it was a joke, almost state wide, when Roy went blustering up to Columbus, proclaiming the legislature should not gerrymander Scioto out of the Sixth district, destroying his chances for congress. Now it is a near tragedy with Roy working his jaws as though he liked it.

Between us the contractors on the water works are not putting anything over on Mayor Frick though some of them still seem to be quite willing to try it.

The latest bulletin is that even the self-imported audiences are getting tired of listening to the jewsmiths and many are sneaking off.

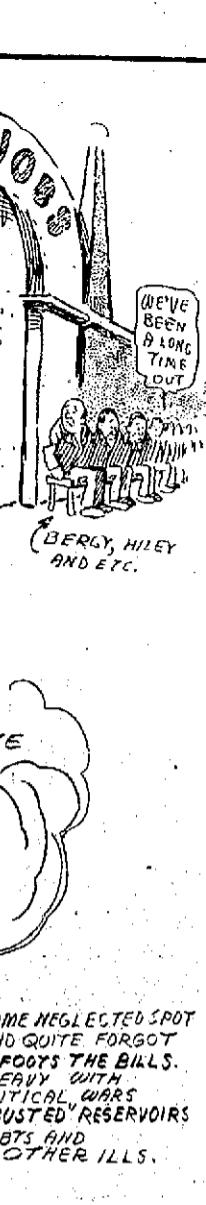

What the town needs is to elect a mayor that will be mayor. Now is no time to choose one for whom others will do the mayoring.

Dr. Wiley says baldness is due to heat pressure. We knew it, we knew it. And sure that fellow was mistaken when he called us a swell-head. It wasn't the head swelling, but the hat shrinking.

It doesn't take much to make Wall Street throw a corruption fit. She had one Thursday over a new French cabinet.

Among other signs of the Democratic times is a spectacular rise in the Connellsburg coke markets.

And now Greece and Turkey are cut off from postal money order exchange with this country.

### THE BETTER WAY.

"Aunt" Frances Eckstein was the guest Thursday, of the village of Glendale, near Cincinnati, in honor of her attainment of the unusual age of an even century. The whole town turned out to do her honor and everybody called on her to offer congratulations and partake of the cheer, which the good women of the village had provided. All the church bells were rung merrily and in the afternoon the school children gathered about the good woman and sang songs to her vast delight.

We like the idea. "Aunt Fanny" must be a good woman, else would not all the people so affectionately call her. It is a thousand times more fitting and helpful that she should be given proof of the love and veneration of her neighbors during her life than receive the most touching tribute of words and beautiful token of flowers after death.

It has been "Mr. Kaps, the Republican candidate for mayor, was also present," or "Mr. Kaps also spoke for a minute" at every Republican rally. That's a pretty good indication that Mr. Kaps will be "also present" in case he is elected mayor while the real governing and parcelling out of patronage will be done by the twin bosses of the new gang.

The Kaps organization tells us in the voice of Charlie Hert that the Frick administration blundered in changing the Gallia piling so a small strip of land would not be taxed for paying. Terrific, terrible, but who committed the unpardonable crime of lifting Gallia pike from above high water mark and setting it far down below? More than that when that "unpardonable crime" of cutting down Dunbar hill was evolved, when nobody asked for the cut, that would ever admit it, who got free the dirt to level up sunken city lots?

Let's see, who was the man who boasted one night that "he had voted for one Democrat in his lifetime and that was Oscar Newman, but if the good Lord would forgive him he would never vote for another Democrat as long as he lived." Any Democrat who is thinking of voting for Mr. Kaps should make inquiry as to who made this remark.

We would not find fault with any Democrat who voted against Mayor Frick if he did so because he honestly thought his opponent would give us a better administration of affairs. We do think a Democrat is untrue to his party and to himself who votes against Mayor Frick for any other reason than the one given above.

We do not know what is going to become of the country the way these Democrats are ruining it with ruinous free trade. A Toledo automobile factory is going to put ten thousand more men to work, just as soon as it can complete the buildings now underway, and already it is employing more than it ever did.

Of course, the fellows who want to get and those who got free city dirt to fill the hollow lots are all opposed.

The people want that flood wall extension and they want it built right. They know Adam Frick as mayor.

## Widow Is Robbed By Sneak Thieves

Mrs. Anna Snyder, widow of Jos. William Snyder, who was run down and killed by an N. & W. train at Gallia crossing two years ago, reported to the police Saturday that sneak thieves had stolen her household effects Friday night. They explained that they had found the boat deserted and felt there was no harm for them to enjoy a quiet snooze there. She chased them from the boat, they disappearing in the willows above. She believed that they it was who Friday night stole two quilts, as many blankets, a rifle and pair of oars belonging to her.

### GRAY HAIR BECOMES DARK, THICK, GLOSSY

Look years younger! Try Grandma's recipe of Sage and Sulphur and nobody will know.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was at home, which is messy and trouble-some.

Nowadays we simply ask at any drug store for "Wyll's Sage and Sulphur Compound." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application of two, your hair becomes beautifully dark, thick and glossy and you look years younger.

## Rev. W. C. Hartinger At Trinity Tomorrow

On Sunday evening, October 31, at seven o'clock, the Rev. W. C. Hartinger of Wheeling, W. Va., formerly pastor here, will preach at Trinity Methodist Episcopal church, Gallia and Offshore streets. This will be good news to his many hundreds of friends throughout the city, all of whom we hope will want to hear him. Sunday evening will be known as Men's Night and all of the men of the Bible Class and their friends will meet in the basement of the church and march in a body to the auditorium where a section of seats will be held in reserve for them. Some very attractive music has been planned for this service, including a song by the men, which we know you will enjoy. A most cordial invitation is extended to all. Come and help us welcome Reverend Hartinger back to his old church.

The music for Sunday evening will be as follows:

Prelude — Military March — Schubert.

Ladies' Chorus — "At Eventide It Shall Be Light" — Gaul's Holy City.

Offertory — Violin Solo — Mrs. Hard.

Quartet — "Arm of the Lord" — (Joseph Nichols) — Miss Aletha Clark, Mrs. Morton Shumway, Mr. Morton Shumway, Mr. John Davis.

## THE GERRYMANDER.

It ought to be plain to every thinking man that the best interests of Scioto county are better conserved in the Sixth congressional district than they would be in a one-sided, warring district like the Tenth, to which we are consigned in case the Sprague law is sustained at the election next Tuesday. In the Sixth district Scioto county is easily the most important county and stands a splendid chance of getting anything that she wants. Her wishes will be consulted by the other counties and members of congress from the Sixth will keep an ear to the ground to know what Scioto wants. This county can make and unmake congressmen, supporting the men who are loyal and honest and capable, and opposing men who are unfaithful to their trust. In short, in the Sixth district, we are in an enviable position. In the Tenth, it is different. We are but one of a series of overwhelmingly Republican counties. Their associations with us in the past have not been of the most harmonious character and they are more than likely to unite against us rather than fight with us. The proposed district is already set up to continue Robert M. Switzer in congress and the ambitions of other Republicans in the district are throttled in advance. With an overwhelming majority at his back, Mr. Switzer can snap his fingers at Scioto. What does he care whether or not this county is satisfied with his votes in congress and what recourse has Scioto if it is displeased?

Again it is of more than ordinary importance to laboring people that Scioto remain in the Sixth district. As close as it is, they can rest assured that a congressman from this district will not be selling himself to predatory corporations, at least not if he expects to remain in congress. Have you ever thought of that phase of the question, Mr. Workingman?

In short, there is every reason why Scioto county citizens should vote against the Sprague law.

## BRICK ROADS.

(Dayton Daily News.)

Now that we have begun to discuss seriously good roads, for Montgomery county, with every prospect of obtaining them, anything pertaining to road making material, or to road construction, is of interest. No definite plans have as yet been agreed upon, and no plans can be agreed upon until further along in the game, when the money is in sight, but it is well to begin a discussion of the subject; to the end that when the time comes the people may be better informed as to the nature of roads in other parts of the country.

Franklin county, in which Columbus is situated has had a good deal of experience in road making. Several years ago a party of solid business men got together, and determined that the county should have better roads. These men went to the candidates for commissioner. They told the candidates that they wanted good roads, and were going to use every effort to obtain them, and they wanted to know right in the beginning how they stood upon the question. After consultation, three candidates were agreed upon—men whom the little party of business men found to be absolutely on the square and reasonably intelligent. These men were elected, and made good. They have since been re-elected several times, and Franklin county today has the best roads of any county in the state outside of Cuyahoga county—thanks to these commissioners and the people who support them because of their intelligence and integrity.

So we may well look to Franklin county for valuable experience. The commissioners in Franklin county lacked experience in road building, and all of the roads constructed were not a success. Such roads are being replaced. But the roads that failed to prove successful are known, and there will be no occasion for our making similar mistakes. We can just as well adopt the kind of roads that did prove successful, and when the time comes it is to be hoped that our commissioners—whoever they may be—will study the experience of Franklin county.

The editor of the Ohio State Journal, published at Columbus, who has of course been familiar with the Franklin county experiments, is strongly in favor of brick roads. In a recent editorial in the State Journal the following comment is to be found:

"The experience of the last few years, in which the character of traffic on the public highways has changed so remarkably and so rapidly, proves that brick is the best paving material now known for country roads. Brick roads cost more to build than macadam or concrete, but they last so much longer that they must be cheaper in a term of years. A brick road surface, properly laid, at the right season of the year, requires almost no attention and is practically indestructible."

"Macadam, on the other hand, has proved its unsuitability for present-day traffic. Some of the fine macadam roads in this county, built only two or three years ago, are worn out already. They must be worked on almost all the time to keep them free from holes and ruts. They simply cannot stand up under the strain put upon them by automobiles. Concrete as a country-road pavement is still more or less in the experimental stage. It is cheaper than brick but it does not seem able to withstand the freezing and thawing of spring and fall and it cracked and seemed to be a miserable thing and dangerous. In the light of present knowledge, brick is by all odds the most satisfactory paving material for country roads."

"Our county commissioners have done nobly in their work of road improvement. Franklin county roads now are nothing to be ashamed of; they are almost uniformly good, in fact, but the only way they are kept so is by almost constant repairs. If they had been surfaced with brick, instead of macadam, they would give much better service, last much longer and probably cost much less in the end. The commissioners will do well now to give up macadam and go over to brick, as new road construction becomes necessary. We hope within a few years to see every main Franklin county road paved with brick to the county line."

George L. Gableman has made an ideal official. He ought to be unanimously re-elected as city auditor. And bear in mind that that office is one of the most important of all city offices, for the city auditor is the watch dog of the treasury.

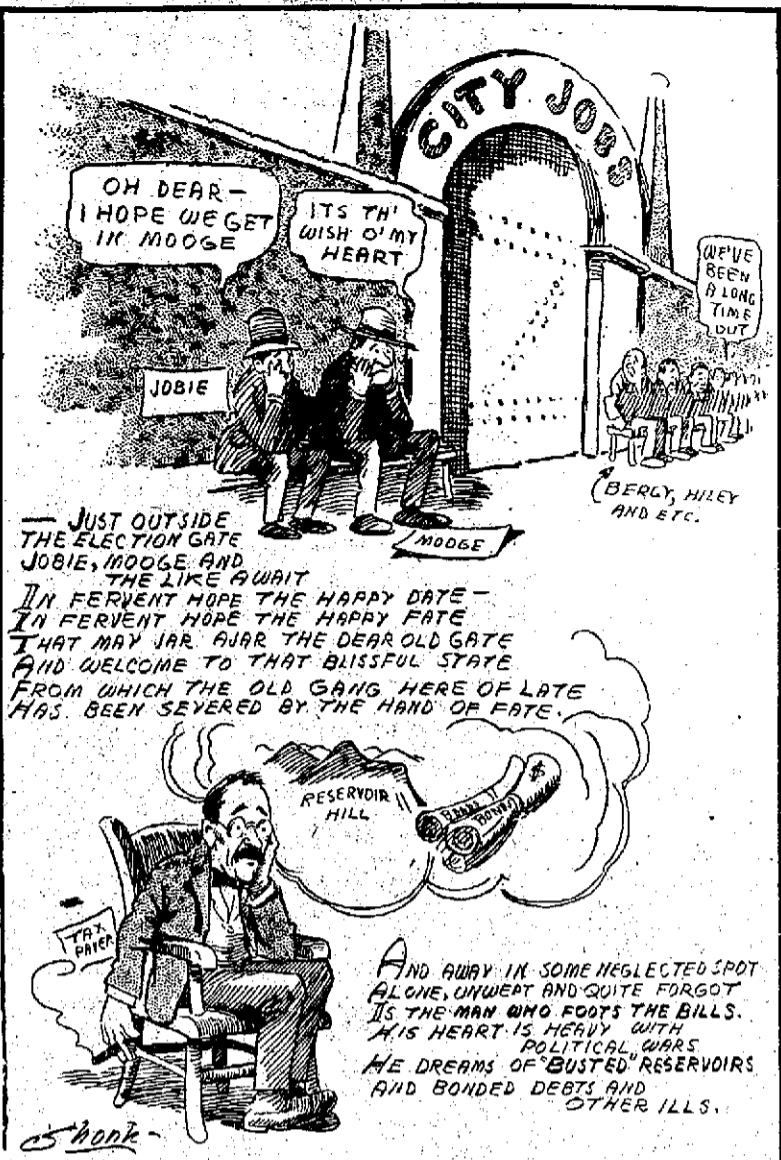

Another thing Pure Doc Wiley says is that 95 per cent of the children have bad teeth. Only another argument children should be taught to save their pennies instead of squandering them for impure candy that is most injurious to the teeth.

According to the cablesgrams the British submarines are playing it for fat with German freighters in the North Seas. And that if they are doing as much destruction as claimed, the greater wonder is why they did not get at it sooner.

By the way, wouldn't the mayor's typewriter that affords the G. O. jawsmiths so much amusement, make some noise if he were to operate on schedule in that empty reservoir!

One day within the week the Norfolk and Western handled more coal cars than on any other day in its history, as likewise did the Chesapeake and Ohio, both sort o' belonging to us. Spells more ruinous from these Democratic times.

Those who held to the insistence that Bryan is a dead man, either as politically, statesmanly, publicly or otherwise, will have occasion to wipe away their tears when they read of his reception Thursday night, mind you, Cincinnati, and he was talking for prohibition at that. For according to the Enquirer, which has long been suspected of a desire to preach his funeral, Music Hall, where he spoke, and which holds thousands, was crowded to suffocation, while other thousands, unable to get in, stood on the outside. That wasn't all either, for his audience had to wait for two hours after the appointed time for him to put in an appearance, and it waited. Further still, the Enquirer is forced to narrate, he is still the same Bryan, forceful, eloquent, magic of voice and adroit in presentation of his ideas. Yes, it looked like the old frantic days

of 1896, when he drew to the same place forty thousand people, the largest political gathering, before or since, witnessed in Cincinnati. And now as then he swayed his audience with that surpassing appeal of his word, one moment raising them to an ecstasy of applause and the next stilling them into a silence that was next to tears.

No, there is no peer of "The Great Commoner" when it comes to playing on the emotions, and that has been the failure of his career. He moves too much and convicts too little. That is the strangest thing of all too, for none is so clever as he in presenting his own views and so skillful in exposing the weakness of the opposition.

## JUST A WORD.

According to the logic of that powerfully unconvincing orator, Nate B. Gilliland, Mayor Frick is responsible for that busted reservoir, because the Tynes administration realized it was built upon something more shifting than sand and drove some stakes in some more, shifting stuff below to hold it.

We suppose Nate's idea is that Adam should have gotten out and held those stakes up.

But here is just one fact: The reservoir could have been made safe and secure for ages by going down less than two feet more and laying both foundation and floor on solid rock, which is right there.

Why wasn't that done in the first place, instead of trying the entirely futile thing of trying to brace the walls with sticks?

Roy must be trying to qualify as a thirty-third degree politician. Else would he not be so gustily eating crow on that gerrymander proposition. Actually it was a joke, almost state wide, when Roy went blustering up to Columbus, proclaiming the legislature should not gerrymander Scioto out of the Sixth district, destroying his chances for congress. Now it is a near tragedy with Roy working his jaws as though he liked it.

Between us the contractors on the water works are not putting anything over on Mayor Frick though some of them still seem to be quite willing to try it.

The latest bulletin is that even the self-imported audiences are getting tired of listening to the jawsmiths and many are sneaking off.

Dr. Wiley says baldness is due to hot pressure. We knew it, we knew it. And sure that fellow was mistaken when he called us in swell-head. It wasn't the head swelling, but the hot shrinking.

It doesn't take much to make Wall Street throw a conniption fit. She had one Thursday over a new French cabinet.

Among other signs of the Democratic times is a spectacular rise in the Connellsville coke markets.

And now Greece and Turkey are cut off from postal money order exchange with this country.

## Widow Is Robbed By Sneak Thieves

Mrs. Anna Snyder, widow of Jos. William Snyder, who was run down and killed by an N. & W. train at Gallia crossing two years ago, reported to the police Saturday that sneak thieves had stolen her household effects Friday night. They explained that they had found the boat deserted and felt there was no harm for them to enjoy a quiet snooze there. She chased them from the boat, they disappearing in the willows above. She believed that they it was who Friday night stole two quilts, many blankets, a rifle and pair of oars belonging to her.

M. Balmer, the Pumpkin Hill undertaker, was dangerously under the weather Friday, but he cured himself by getting riled up. The thing that angered him was the thought that if he should die he would have to beat himself out of the job of undertaking himself, and being too much of a business man to give another fellow the job, he decided to call it off and die some other time, when he is a little better heated and doesn't have to depend on anybody else for support when ho hands in his chips.—Coopersville Observer.

Throwing cobble stones.

Whacking slugs with crow-bars.

Bumping heads.

Petit larceny.

Breaking show windows.

Pulling hair.

Scratching faces.

Stealing furniture.

Upsetting dwellings.

Breaking bridges.

Wrecking trains.

Using black-jacks.

Tramping on toes.

Kidnapping women.

And general warfare.

## NEW YORK DAY-BY-DAY

O-O-McINTYRE.

New York, Oct. 30.—Anna Held and those beautiful eyes are back on Broadway. She comes back from Paris where she was strucken France to friend away a few months with old-time friends. The last time Miss Held was here was the wife of Florenz Ziegfeld and now Mr. Ziegfeld is the husband of Billie Burke.

The boom reminds the few survivors of ancient days of the bustling times of gold speculation. It is a poor day when less than 1,000,000 shares are sold on the Stock Exchange. In one day last week \$6,000,000 worth of bonds was sold.

Everybody in the district shires in the prosperity. Restaurants which ordinarily bid for the non trade and close before dusk, are now a glister with glowing electric signs. "We Are Open at Night". Tailors and barbers in the streets near the financial district are all busting with new business.

Bar keepers have invented new drinks to stimulate the hard workers; but this traffic has not increased as much as others. The old, old hansom cabs have come back. Horses recalled from the grasses of Jersey and Long Island once more amble up Nassau Street and Broadway. Cots have been installed in all the banking and brokerage houses.

Franklin P. Adams thinks Lord Willoughby De Broke, who spoke in Parliament the other day, sounds like a creation of Charles II. Hoyt.

Edna Ang is back from Los Angeles firm in her determination never to play any more movie scrub-women roles.

## Business Visitors

F. Bateman, well known Picketon citizen, was a visitor here Friday. James, his responsible Jenkins, of Ottway, weight now as white city Friday.

James, "S. M. Responsibility," I can't say, was a "lunderin'" why it never occurred, "I'm gang t' blame it on me."

"I'm terribly nervous and always am on opening nights."

"If you're nervous now," replied the other actress, "what will you be when you're my age?"

"About fifty-six," was the reply.

And that started the whole thing.

# BOARD OF TRADE AFTER NEW PASSENGER DEPOT

## Committee Named To Confer With The Officials Of N. & W.

Directors of the Board of Trade met at a special meeting Friday evening, decided to use their best efforts in securing a new N. & W. passenger depot for Portsmouth. The first step toward this end was the appointment by President W. B. Anderson of a committee of three directors to confer with N. & W. officials, L. C. Turley, F. V. Barnes and R. G. Bryan.

The directors were unanimous in the opinion that the present passenger station at Tenth and Waller streets is inadequate for a city of the size of Portsmouth. The waiting room is frequently too crowded to accommodate all persons who are waiting for outgoing trains, particularly at a time when a transfer is being made from the Cincinnati to the Columbus division, and vice versa. Besides, the present station does not have the conveniences and improvements of depots in other cities of even smaller size than Portsmouth, some of them on the N. & W. line.

It is not to be denied that Portsmouth is the second city in commercial importance on the Columbus division and the freight and passenger business is second only to that of Columbus, and for this reason the directors of the Board of Trade feel that they are justified in making a request for better accommodations for the traveling public.

The committee will get together at an early date and make arrangements for a conference with the N. & W. officials, when the matter will be presented to them.

# BLOW OUT REDUCES THE WATER PRESSURE

The pressure of the city water supply was noticeably reduced Saturday morning due to another blow-out on a 12-inch main at the new Lawton Run viaduct site, Friday evening.

It is thought that blasting or undermining worked loose the pipe, which at that particular point is exposed, resting as it does on tim-

bers and piling, with no earth underneath to support it. The pipe probably settled and a spigot pulled out of the bell setting. City officials felt it would be impossible to do much good, dark as it was there, without shutting off the city water supply entirely, and as night consumption is materially less, they put off repair until morning.

The break stops all feeding south from the valve box of Simpson's foundry, and all that portion of the city south of Gallia street is therefore supplied from the main that runs down Robinson avenue and through the smaller cross-town services. This causes the pressure re-

duced to 40 pounds.

# ORATORY FAIRLY FLOWED ON THE PUBLIC SQUARE

## "BONE BREAKER" HOODOO AFTER HIM

Charles Anderson, Scioto Trail farmer, who had his right leg broken near the ankle Friday afternoon figured in a like accident about a year ago. Friday afternoon his team ran away near Greville street on Gallia and Anderson was thrown from the wagon. Anderson was moved to the home of his sister, Mrs. C. L. Frederick, Union and Sixth streets where he will remain until hearing.

Thos. Mugavin, on behalf of the liberal element, made a speech against prohibition and was greeted by a large audience. Mr. Mugavin's home is in Cincinnati.

Only a few feet from Mr. Mugavin's stand Miss Lottie Burke, a Socialist, delivered a very forcible address.

At the east end of the square the deys held forth, and from their platform the dry issues were ably defended by T. C. Lewis, state secretary of the Workingmen's Protective Publicity Association; Harry Edward and the Rev. C. E. Chandler, pastor of Bigelow M. E. church.

There was much applause for each speaker and a flood of oratory swept across the Gallia street asphandise

Friday evening. With a Republican meeting on the Haldeman building facing the square, and a dance on in the A. I. U. hall, the political

and dry orators, being enthusiastically set forth, the political

spell-binders putting forth their best bids and with a dance orchestra

grinding out popular airs, the Government Square was undoubtedly the center of interest in "this man's town" last night.

## MAY OFFICIATE AT THE WILSON-GALT WEDDING CEREMONY

Hallowe'en pranks of mischievous youths kept the police on the jump responding to calls from all parts of the city Friday night. The telephones at police headquarters

were kept hot by the numerous complaints and Sergeant James Marshall was certainly one busy man. So far as learned no property damage of a serious character occurred anywhere.

## Police Kept Busy

Beginning November 2, those retail stores employing union clerks will open for business at 5:30 o'clock

November, December, January, and February, when the earlier opening hour will be re-established.

## Orders Fine Sign

Always believing in progress, Chris Malavazos, proprietor of the Malavazos Candy Store, Fifth and Chillicothe streets, has placed an order with the Grimes-Peebles Co. for

an animated electric sign, which will cost in the neighborhood of \$750.00.

The sign will be the largest in the city and will be equipped with 530

electric light bulbs, and will be hung in front of the candy store. It

will be one of the prettiest signs in this section of the state.

## The Second Amendment

THE SECOND amendment to the State constitution, proposed and to be voted on November second, is the one extending the terms of county officers to four years instead of two, as at present, and applying it to present incumbents.

This is a step in the right direction and has been taken in many states in the last few years. It has been pretty generally adopted by the newer states that have made their constitutions in the last few years and many of those states that have made the old ones over.

The change is made in the interest of greater efficiency. It is taken for granted that a man can become efficient and give the public proper service in a position in which he has had no former experience in two years. The granting of a second nomination is not equivalent to the extending of the term because an official's attention and much of his time, that ought to be given to the duties of office, is taken up by the campaign for the second term.

Then, too, it is possible that a great many good men, who could not consider leaving their farm or their business for a two year term, would accept important offices if the term were extended to four years.

And since it has been generally conceded that these officials are entitled to four years by a second term, the election seems a needless expense to both candidate and county.

We have heard no argument against this proposed amendment except that, if an unsatisfactory man should be elected two years is enough. While this is no doubt true, it is just possible that when the terms are extended to four years, more care will be exercised in the nomination and election of men to the office.

In the opinion of The Beacon this amendment ought to expire.

On this proposition the Jefferson Gazette has this to say:

"The second proposition on the ballot will be to make the terms of all county officers four years instead of two. We favor this amendment because we're getting tired of the constant political wrangle and office hunting that every two years stir up the equity. The only objection to the proposition will come from hopeful candidates who want to get a chance to get their names on the ticket. This tell the clerk, recorder treasurer, commissioner, surveyor, auditor went into office but before they have given the public a year's service they must start all over again to obtain the customary second term, which is equivalent to one four year term. If they should happen to be candidates for a second term they would run on the record actually established in office, whereas now they have had no time to prove themselves capable servants before another campaign must be organized. We shall favor this four year amendment for the reasons stated."

And it is a good proposition. Four years is a short enough time for any public officer. If he goes wrong the first year he is in office, it is easy to get rid of him. He is not fastened upon the community, regardless of anything that might happen. That was the object of the two-year term—to get undesirable people out of office readily. But we do not now have to wait until elections; any officer can be thrown out of office if he goes wrong. So the county is running no risk in electing an officer for four years, and everybody knows that we have entirely too many elections in this country under the present system—Editorial in Dayton News Oct. 8, 1915.
